VOL. 103 NO. 7

VICTORIA, B.C., FRIDAY, JULY 9, 1943—14 PAGES

DIMOUT—9.40 TO 4.40 A.M.

PRICE FIVE CENTS

Final BULLETINS

Sub Toll Lowest Since Pearl Harbor

WASHINGTON (AP)—Losses of Allied and neutral merchant ships from U-boat attacks in June were "the lowest since the United States entered the war," and trans-Atlantic convoys were "practically unmolested." This was disclosed this evening in a joint announcement by the British and U.S. governments.

No Potato Surplus

OTTAWA (CP)—The only surplus of potatoes in Canada at present is about 20 carloads in northern Alberta, and arrangements are being made to move these to other areas, the Prices Board said in a House of Commons return tabled this afternoon for A. H. Bence, Prog. Com., Saskatoon.

5th Arrest Made On Draft Charges

TORONTO (CP)—Robert Douglas of Toronto was arrested today by Royal Canadian Mounted Police on a charge of "conspiring to impede the operation of National Selective Service mobilization regulations."

He is the fifth man to be arrested on a conspiracy charge this week. Further arrests are forecast by officials, who say the police investigation has extended to points outside Toronto.

Pas To Vote Aug. 17

WINNIPEG (CP)—The provincial by-election in the northern constituency of The Pas will be held Aug. 17, with nomination day Aug. 7, it was announced here today.

The seat became vacant when John Bracken was chosen National Progressive Conservative leader last December.

Four candidates have been nominated—three Coalition and one C.C.F.

Criticize Order Freezing Teachers

VANCOUVER (CP)—Harry Charlesworth, general secretary of the B.C. Teachers' Federation, today said the federal freezing order which makes it impossible for teachers to improve their standard of living by accepting jobs in higher-paid industry is an injustice to teachers unless it is coupled with efforts to improve conditions within the profession.

Deaths in Raid

LONDON (CP)—Casualties are expected to prove heavy in a southeast England town, where a large theatre was hit by German planes today and three adjoining business buildings, with apartments above, burned.

One raiding plane crashed in flames south of Croydon. The two occupants were killed.

Tax Strike Off

VANCOUVER (CP)—A threatened walkout of Chinese employees at two lower mainland shingle mills, in protest against what they termed discrimination in the application of the Federal Income Tax was averted today after officials of the International Woodworkers of America interviewed the men.

Clearing Mystery Of Oakes' Death

NASSAU, Bahamas (CP)—Police reported late today they are hopeful of clearing the mystery surrounding the death of Sir Harry Oakes, multimillionaire, gold mine owner whose body was found in bed Thursday morning.

Formal evidence was unfolded today at a coroner's inquest held in private, and the hearing then was adjourned until next Tuesday.

(Earlier item page 2.)

Goebbels at Cologne

LONDON (CP)—The Vichy radio in a broadcast recorded by the Associated Press late today said Goebbels, Nazi propaganda minister, had arrived in Cologne to examine the damage caused by Allied raids on that city.

Giant Tanks At Wedge In Russian Lines

Hammer Blows On Sicily By Day and Night

By RELMAN MORIN
ALLIED HEADQUARTERS IN NORTH AFRICA (AP)—Hundreds of Allied planes shuttled back and forth across the Mediterranean Thursday for the sixth consecutive day to rain explosives on the Sicilian airdromes and ports which constitute Italy's first line of defence, it was announced today.

Heavy and medium bombers, fighter-bombers and fighters from northwest African bases, Malta and the Middle East joined in the missions of destruction.

Triphammer blows were loosed on familiar targets, and the lighter craft also went on free-lance missions across the length and breadth of Sicily, shooting up trains, radio stations and troops. One Axis troop convoy was caught on a road.

The aircraft nests above Gerbini were blasted again by day and by night, whipsawed from the southwest and the southeast. Catania, Comiso, Sciacca and Cap Passero, the latter at the southeast tip of Sicily only 65 miles from the R.A.F. base at Valletta, were hit anew.

21 NAZIS DOWNED

Northwest Africa, Valletta and Middle East communications told of the shooting down of 21 Axis fighters and the destruction of other enemy planes on the ground, against the loss of 11 Allied aircraft.

Cairo bulletins announced that U.S. 9th Air Force Liberators had dumped 125 tons of high explosives on Catania in a two-wave attack Thursday, this following up a flame-setting raid upon Axis barracks at that city by R.A.F. heavy bombers the preceding night.

ITALIAN REPORT

The Italian high command said in a Rome-broadcast communique that 81 persons were killed and 209 injured at Catania in repeated raids which ruined buildings and started fires in the heart of the city. It declared 26 raiders were shot down over Sicily.

Malta-based Spitfires of the R.A.F. assisted in escorting U.S. bombers over Sicily, shot down three fighters of a German formation which was attempting to land at Comiso and then turned their guns upon the field, already marked by the wrecks of burned out or damaged planes.

French Committee Only Stoppag. Says Roosevelt

WASHINGTON (AP)—As long as the French people are under German domination, President Roosevelt indicated today, the United States cannot recognize the French Committee for National Liberation nor any other organization as the governing power of France.

Mr. Roosevelt told a press conference he did not think the question of recognizing the Committee for National Liberation had come. He observed that currently there is no France except about 5 per cent which is outside of the occupied France in Europe.

To a request for comment on reports in the press that the American attitude toward Gen. Henri Giraud and Gen. Charles de Gaulle, co-chairman of the committee, was "unduly interfering with French political affairs," Mr. Roosevelt said he could assert only that he supposed 95 per cent of France was under the heel of the Germans in France.

As about his talks here with Gen. Giraud, the President said he and the general had talked at lunch Thursday about various military problems. He offered no elaboration.

Would Join Union

OTTAWA (CP)—M. J. Coldwell, C.C.F. leader, today told the Commons he believes Canada should join the Pan-American Union and that she could do so without breaking connections with the British Commonwealth. He suggested, however, that there might be a barrier in the union itself.

Jap Air Forces In South Pacific Pulling Punches

By C. YATES McDaniel
ALLIED HEADQUARTERS, Australia (AP)—Only three miles from Munda, United States invaders are probing Japanese defences of that New Guinea island air base and over both the Solomons and New Guinea Allied planes have dealt new blows with nearly 100 tons of bombs, Allied headquarters reported today.

On the other hand, the hard-hit Japanese air force, having lost nearly 200 planes over the Solomons within a week, has diminished the weight of its punches.

The pinners which American marines and soldiers began applying on Munda July 9 by landing both north and east of it pressed nearest at Elelo, on the east, where advanced patrols clashed Thursday with Japanese and defeated them. It was a feeling-out encounter, with the big push obviously in abeyance while the main forces which stormed ashore above Munda at Rice Anchorage and east of it at Zumaia consolidated positions. The entrenched Japanese at Munda are believed to be in considerable strength.

SUPPLY BASE BURNS

Above New Georgia on Kolombangara Island, Munda's big supply depot at Vila was fired and holed by 21 tons of high explosives unloaded by dive bombers and torpedo bombers.

Farther up the Solomons, the Kahili airdrome was raided at the southern tip of Bougainville Island by heavy bombers Thursday night. Their 23 tons of bombs started fires. One bomber was lost.

On northeastern New Guinea, where Australian and American patrols are moving toward the enemy air base of Salamaua, the Allied planes continued to virtually blast a path through the jungle with their bombs.

Other formations bombed and strafed Japanese while Australian ground patrols maintained pressure on enemy units between Mubo and Salamaua, points 12 miles apart.

Australian and American-named bombers Thursday fought off 14 Zeros, destroying three for certain and possibly two others as they bombed the enemy airdrome of Penfoel at Koepang on Dutch Timor.

(The Tokyo newspaper Asahi was quoted in a Berlin broadcast Thursday as saying the Allies were pushing forward in the Solomons and were "carrying the fight to New Guinea." The newspaper urged the Japanese people to unite in support of the "hard fighting on the front.")

BOUQUET FOR RUHR—Stick of 10 neatly bunched bombs heads for a target at Huls, Germany, during Flying Fortress raid on the Ruhr.

Possible Route for Allies to Japan

When they have crushed the Japs in the Solomons and on New Guinea, will the Allied forces, in their drive to Tokyo, follow the line indicated on the map? Their strategy is still a secret, but some observers believe they will go that way.

Four Road Outlets to Pacific In \$210,000,000 B.C. Works Plan

A \$210,000,000 postwar highway program for B.C., including \$18,623,300 to be spent on Vancouver Island, with three connections to the Island's Pacific coast, was announced today by Hon. Herbert Anscomb, Minister of Public Works.

The vast program, which will cover nearly 5,000 miles of road, has been prepared by public works department engineers and has been submitted for approval to the Dominion Government for inclusion in its postwar reconstruction program, Mr. Anscomb said.

While the Vancouver Island program does not take in the long-talked about and much discussed West Coast highway, it does include four outlets to the Pacific, one from Victoria to a point this side of Port Renfrew, another from Port Alberni, down the Alberni Canal to Ucluelet and then along Long Beach to Clayoquot and Tofino, another from Port Hardy to Quatsino Sound, on the northern tip of the Island, and the fourth from Lake Cowichan to Port Renfrew.

The program, with estimated costs, follows:

1. Trans-Canada Highway, \$44,167,000.
2. Southern Trans-Provincial Highway, \$53,508,000.
3. Island Highway, \$18,623,000.
4. Northern Trans-Provincial Highway, \$24,661,100.
5. B.C. Peace River, Yukon, Alaska Highway connection, \$23,709,300.
6. Cariboo Highway, \$15,458,800.
7. North Thompson Highway, \$7,034,300.
8. Vancouver-New Westminster Express Highway, \$11,237,000.
9. Parks Highway, \$11,858,900.

DISCUSSED IN OTTAWA

This great program was definitely discussed in Ottawa not long ago by Premier John Hart, Mr. Anscomb said.

"Not for three decades has an administration prepared such a forward-looking program and one that deals so shattering a blow to critics of highway policies," the minister said.

Continuing, Mr. Anscomb said "the program of projects prepared for the postwar period far surpasses the dreams of the people and will play an important part in the provincial economy in the years to come. There is no difference whatsoever between the principle of a road system that leads, in advance, to industry and tourist development and a hydro-electric program that must be planned and produced before industry can be established—a policy that already has been sponsored and outlined in great detail by Premier Hart and shows clearly the progressive make-up of the business side of the Coalition administration."

Nazis Reinforce; Battle At Kursk Growing Fiercer

By WILLIAM MCGAFFIN
MOSCOW (AP)—German armored columns led by 60-ton Tiger tanks battered again today at the Belgorod end of the Kursk salient, where they succeeded Thursday in driving a wedge into Russian defences at a terrific cost.

Reports from the front today said the battle on the debris-strewn steppes of Kursk was growing in violence. Otherwise little was known of the fifth day's fighting in the new German offensive.

Both in the Belgorod area and against the unyielding northern sector of the Soviet line the Germans were said to be throwing fresh troops and new tanks into the battle.

The Russians also were bringing up large numbers of 50-ton "KV" tanks to combat the mammoth German Tigers in a deadly struggle which already has reached history-making proportions for the high German losses and low gains.

But as the German forces in the Orel-Kursk sector tried vainly to imitate the example of their comrades at Belgorod, the Russian army newspaper Red Star warned against underestimating the strength of the German armies.

Nazis Can't Wait Soviet Paper Says

The Germans continue to fight desperately because Hitler has to try to offer the people "if not a real victory at least an ersatz victory," Red Star said. "Germany can't wait. It is frightened by the offensive spirit of the Red Army and the war preparations of the United States and England."

Red Star declared the powerful Nazi tank columns in the Orel-Kursk region had changed the direction of their attack several times in a desperate effort to find a weak point in the deep Russian positions.

In that northern section of the fiercely-blazing 200-mile battle-line, the Russians said their troops had regained lost ground in a succession of counterattacks Thursday while holding firm against a mighty stab by some 90,000 Nazi troops against one narrow area.

The Nazis returned to the attack at 8 a.m. Thursday on the Orel-Kursk sector. On the narrow front where the 90,000 German forces were engaged, the battle had reached its peak by 2 p.m. The Pravda correspondent said one Russian unit, however, withstood 13 subsequent attacks.

The correspondent said that, protected by swarms of aircraft, the Germans threw 250 tanks against the Russians. But not a single one got through.

Dispatches from the front declared the German air force had failed in all its attempts to win supremacy over the battlefield. One batch of Russian pilots was said to have shot down 110 German planes during 81 dogfights throughout the day.

As the masses of plane-supported Nazi armor and infantry commanded by Field Marshal Guenther von Kluge carried the offensive into its fifth day, the Russians, although admitting a new enemy tank penetration near Belgorod, declared "stiff fighting continues" in that southern sector.

1,843 Tanks, 810 Planes, 35,000 Nazis Toll

A Moscow communique reported an additional 304 German tanks were destroyed or damaged in Thursday's fighting and 161 planes were shot down, raising the four-day enemy losses to 1,843 tanks and 810 planes. Nazi casualties were reported as at least 35,000.

(The Friday German high command communique, broadcast by the Berlin radio and recorded by the Associated Press, declared that "the big struggle in the Belgorod-Orel area goes on with undiminished ferocity." It

claimed that "since the day before yesterday a gigantic tank battle has been raging in the rear of pierced Soviet positions in which the Soviets are making every effort to check our temporarily advancing armored spearheads."

(It said the Russians lost "another 400 tanks" and sustained high casualties. The German war bulletin also claimed the Russians had lost 117 aircraft Thursday.)

Despite the enormity of the German effort to pinch off the Kursk bulge by drives from the north and the south, the situation of the defending Russian forces was regarded here as generally unchanged.

Violent Fighting In Hill Section

Some of the day's fiercest fighting developed among the hills of one narrow section of the Orel-Kursk front. Three German tank and three infantry divisions beat against the Soviet positions in three consecutive attacks, the Russians announced, but the defenders withstood them all and killed some 5,000 of the attacking force of approximately 90,000 men.

The communique acknowledged indirectly for the first time that the Germans had made some gains along this northern section of the line. "By counterattacks our troops dislodged the enemy from various places which he took on the first day of the offensive," the bulletin said.

The German gain in the Belgorod sector, the fourth reported by the Russians in as many days, was attained only after day-long fighting in which the Soviet troops inflicted heavy losses and hurled back enemy assault columns on several occasions.

(German propaganda accounts broadcast from Berlin told of "secret new weapons" in use in these great tank battles, one a "projector" artillery weapon whose fire was declared capable of leveling a forest. A "super Tiger" tank, superior to the 60-ton Mark VI, also was said to be in action. Russian accounts made no mention of any such weapons.)

Great air battles raged along and behind the front. The Russian communique said Soviet bombers "caused heavy losses to the enemy" in attacks Wednesday night on troop trains, tanks and trucks.

U.S. to Equip French Africa Army Of 300,000 Men

WASHINGTON (AP)—Gen. Henri Honoré Giraud, disclosing that President Roosevelt had promised to equip a French north African army of 300,000 men, pledged today that French forces will help fight the Japanese after defeat of the Axis powers in Europe.

Gen. Giraud told a roomful of correspondents: "I give you the following pledge: 'France will be at your side to liberate the Pacific from Japanese domination, even as she will remain with you to build a peace that will be lasting and just but also realistic.'"

Gen. Giraud spoke in French to the press conference. He avoided discussion of the political situation in north Africa, where he shares the chairmanship of the French Committee of National Liberation with Gen. Charles de Gaulle.

The conference was held under war department auspices, and at its beginning the department handed correspondents the following statement:

"The member of the French Committee for National Liberation (Gen. Giraud) does not wish to take a political position that might involve the whole committee."

Gen. Giraud opened the conference by reading a prepared statement, followed by an informal summary of his impressions on a visit this morning to Mount Vernon.

Call for Pictures Of Enemy Countries

OTTAWA (CP)—The intelligence directorates of the armed forces appealed today to Canadians for pictures showing views of enemy country, particularly coastal or inland photographs, of roads, railways, canals, bridges, power stations, harbors, beaches, hills, valleys, industries and utilities of all kinds.

The joint announcement said Canadians could give "untold aid" by submitting pictures or postcards collected in their pre-war travels or sent to them by friends, to the secretary of the naval board (for photographic library), naval service headquarters, Ottawa.

The naval photographs library is a pool for the intelligence branches of the services, and copies of worthwhile pictures of enemy terrain are submitted to the intelligence heads of the British armed services, as well as to the United States.

Any such pictures, the announcement said, should be in the form of snapshots, postcards, scenic strips, travel folders, scenic calendars, or accurate drawings and etchings. Persons sending in such items are asked to write a covering note explaining when they were taken or when they were possessed, and incorporating any additional knowledge they have concerning the scenes depicted.

Future campaigns, the statement added, depend on "good photographs of targets, landing places and communications."

"By such pictures, camouflaged positions in enemy or enemy-held countries could often be detected by comparing earlier photographs or pictures with those taken by reconnaissance parties," it said.

All items sent to naval service headquarters bearing addresses of the senders will be returned immediately after being photographed. Pictures taken before 1925 should not be submitted, the announcement said.

Day Sweeps Follow Night Raid On Cologne Rhineland City Hit for 119th Time

LONDON (CP)—The R.A.F. returning to the assault on Germany after a four-night lull in the Allied aerial offensive, made a heavy attack on the Rhineland industrial centre of Cologne Thursday night, the Air Ministry announced today.

Eight bombers were lost in the raid, the announcement said. Mines also were laid in enemy waters during the night and British fighters on intruder patrols simultaneously attacked enemy airfields and railway targets in France and northwest Germany. Three German minesweepers were reported damaged in sweeps along the French coast.

The heavy British bombers had scarcely returned from their night foray over Germany when formations of Allied fighters swept out across the Channel in the direction of northern France to continue the offensive by daylight.

Britain, meanwhile, passed a raid-free night.

119TH ATTACK

The attack on Cologne was the 119th on that bomb-battered city, target of the first great 1,000-bomber raid a year ago. The big Rhineland industrial centre had been attacked twice before within the past two weeks—once June 28 and again last Saturday night. Both assaults were highly concentrated.

The R.A.F.'s big bombers had not been out since last Saturday night's raid, when in co-operation with R.C.A.F. aircraft they also struck at Hamburg and targets in the Ruhr. Operations since then had been limited to comparatively minor operations against communications and airfields in occupied territory by intruder patrols.

A Berlin broadcast recorded by the Associated Press, following the usual line taken by Nazi propagandists, described Thursday night's assault on Cologne and its environs as a "terror raid" directed against residential areas.

There were casualties among the population as well as devastation in residential quarters," said the Nazi broadcast. "Cologne cathedral was again attacked and hit." It claimed six of the raiders were shot down.

CLEAR SKY
The R.A.F. night raiders were favored by good weather, the skies clearing Thursday evening after a day of thunderstorms.

Despite the unfavorable conditions Thursday, R.A.F. Typhoons and Mustangs carried out offensive patrols over northern France and the Low Countries. The planes were reported to have destroyed one German aircraft and damaged several locomotives. One R.A.F. plane was listed as lost in these raids.

Thursday R.C.A.F. squadrons also prowled over northern France on offensive patrols, destroying a number of enemy aircraft and damaging locomotives. Wellington bombers laid mines in enemy waters.

R.C.A.F. headquarters reported that all planes returned safely from their missions.

Prime Minister King Says

Allied Successes Bring New World Set-Up Near

OTTAWA (CP)—Prime Minister King today told the House of Commons the aerial and commando assaults against Italy and Sicily, Sardinia and Crete, "are parts of a single strategy which the immediate future may be expected rapidly to unfold."

"The war in 1943 must be thought of as a vital part of the war of liberation of the oppressed countries of Europe, of which the liberation of the French empire in Africa was both an essential and a memorable prelude," Mr. King said.

The Japanese had made "determined efforts" to build and fortify bases for submarines, sea planes and other aircraft at the Aleutian islands of Attu and Kiska.

During May, Japanese forces had been driven out of Attu, which now was under American control.

"Kiska remains a potential centre of attack upon our shores, and upon other parts of this continent," he said.

Mr. King described the new German offensive along about 200 miles of the Russian central front, along with the intensified bombings of strategic targets over Europe, as a "place of new beginning in the war in Europe."

Organization of free China and the maintenance of industries, education and social services had been one of the "most resourceful answers to aggression in the history of the world."

Mr. King said "mounting successes" have marked the offensive warfare of the United Nations during recent months.

Must Take Up World Reorganization

The Prime Minister said the time is approaching "when, even before victory is won, the concept of the United Nations will have to be embodied in some form of international organization."

On the one hand, authority in international affairs must not be concentrated exclusively in the larger powers.

"On the other, authority cannot be divided equally among all the 30 or more sovereign states that comprise the United Nations, or all the effective authority will disappear."

"Some compromise must be found between the theoretical equality of states and the practical necessity of limiting representation on international bodies in a workable manner," he said.

A number of new international institutions are likely to have to be set up as a result of the war, he said, and in the view of the Canadian government effective representation on these bodies should be determined "on a functional basis," which would admit countries which had the greatest contribution to make to the particular object in question.

Canadians Share In Board Discussions

The Prime Minister outlined the work of combined boards forwarding the war effort of the United Kingdom and United States, and said Canada's position was kept in mind.

Informal and exploratory discussions about international aspects of the postwar settlement were constantly taking place, and Canadian experts and officials had participated in such discussions.

On matters as complex as methods for stabilizing currencies, it was obvious there must be many preliminary talks before plans can be framed for consideration of governments.

Opening a review of recent world developments as External Affairs Department estimates came before the House, the Prime Minister as Secretary of State for External Affairs said that in the summer of 1942 battle forces were so evenly matched that in any particular theatre even a slight alteration of forces or a slight accession of concentrated strength might have tilted the balance towards victory or defeat.

As late as mid-October, 1942, he had found it necessary to say there was no sign that the tide of battle had definitely turned.

Good use had been made of the months from June to October in supplying reinforcements and equipment to the few areas in which a later offensive against the Axis might be launched.

That offensive marked the first turning of the tide in the great battle around the world.

The main offensive phase began in the southwest Pacific with American landings on the Solomons in August, 1942; was continued in the offensive launched

by the British 8th Army westward from El Alamein late in October, and received its greatest impetus from the Allied landings in Morocco and Algeria late last November.

North African Victory Ended Great Stage

The successful north African campaign "marked the triumphal close of an all-important chapter in the war."

Campaigns which had been "holding actions" on a vast scale had been turned against the aggressors with increasing force elsewhere. In Russia what had looked like a "last-ditch defensive stand" was turned into an offensive of such proportions that the entire German 6th Army was annihilated at Stalingrad.

Losses of men and materials on that front had been heavier than in any other theatre of operations. For some weeks the Russian front had been relatively quiet, but "a new German offensive now has been launched along nearly 200 miles of central front."

"It, along with the recent intensified bombings of strategic targets over Europe, marks a place of new beginning in the war in Europe," Mr. King said.

In the Pacific, Japan's hold remained widespread. There had been some local gains by China, but the Chinese effort was limited by supplies available and even more by the length and difficulties of supply routes.

The past eight months, from what was known of decisions taken at Casablanca where Prime Minister Churchill and President Roosevelt conferred, and from the combined planning which took place from day to day, the picture of the war in 1943 emerged more clearly, he added.

Discussion Too Late, Green Declares

After Mr. King finished his statement, Howard Green, Prog. Com., Vancouver South, said it was unfortunate the discussion on foreign policy had been left so late in the session.

He said the Prime Minister had boasted last July 1 that Canada had become a world power. It could become a world power, he said, but not under the foreign policy of the present government.

One essential feature of foreign policy, if Canada were to become a world power, was a declaration that Canada proposed to remain within the British family of nations.

Under the present policy, Canada could hope for nothing more than a "small-nation" status in which the Dominion would be overlooked as it had been in the setting up of some of the international committees and boards since the war began, Mr. Green said.

But as a permanent member of the family of British nations Canada was increasingly important and could become the "key stone" of the British Empire.

Canada should be "an active member of the Pan-American Union," said Mr. Green, but only with the understanding that by such membership she was not weakening the ties with the British Commonwealth.

Another feature of the policy should be friendly relations with China and Russia which modern air travel had made "neighbors of the Dominion."

"We are at a turning point in the history of Canada," he said. "Either we go on to become a

real world power or we revert to a small-nation status."

M. J. Coldwell, C.C.F. leader, like Mr. Green, protested that the opportunity for discussing external policies had been left too late in the session, now 107 days old. He said it indicated the desirability of a committee to deal with foreign affairs.

Peace River Bridge To Be Opened

An 1,800-foot steel, high-level bridge with a 24-foot roadway will be opened for traffic across the Peace River, between Dawson Creek and Port St. John, next month. It will replace two temporary bridges that were carried away by high water, a ferry and winter crossings by ice.

H. C. Anderson, assistant chief engineer, Provincial Department of Public Works, said the bridge is one of the many gigantic undertakings in connection with construction of the 1,600-mile Alaska Military Highway by United States engineers. The undertaking, he added, would prove a great asset to British Columbia in development of the Peace River area after the war.

7 Die in Crashes

CALGARY (CP)—Seven R.A.F. students were killed and one R.C.A.F. student injured in three air force training school accidents during the past 24 hours.

Five R.A.F. students at the No. 32 S.F.T.S., Moose Jaw school, were killed Thursday in a crash details of which are not yet available.

Two others were killed at the No. 35 S.F.T.S. at North Battleford.

The Canadian student was injured at the No. 15 E.F.T.S., Regina.

R.C.A.F. Enlistments

Twelve Victorians are reported as having enlisted in the R.C.A.F. through No. 1 Recruiting Centre, Vancouver. Their names follow:

R. E. F. Bailey, University School; G. D. Dennis, 1972 Lee; S. F. Easton, 1025 Johnson; E. D. Richards, 1414 Fairfield; W. L. Arnall, 1033 Balmoral; H. B. Bennett, 1555 Pembroke; R. B. Travis, 925 Olive; F. C. B. Bursey, 574 David; R. Allan, M.P.O. 113; W. G. Holmes.

Principal Chaplain On Visit to Island

Accompanied by senior chaplains of the three services in Pacific Command, Hon. Brig. G. A. Wells, C.M.G., principal chaplain of Canadian armed services at home and abroad arrived in Victoria today to commence a tour that will take him to most of the military and naval establishments on the island.

Early today Brig. Wells attended divisions at H.M.C.S. Naden, Esquimalt, and followed it with visits to the commanding officer, barracks and hospital. The brigadier also visited the Naval College at Royal Roads, lunching there with Capt. J. M. Grant, commanding officer.

This afternoon, the principal chaplain presided at a conference at the Empress Hotel of all the service chaplains in the area, the meeting being scheduled to conclude at 6.

Saturday, Brig. Wells will visit Capt. Massey Gooden, naval officer in charge in Esquimalt and then goes to Nanaimo where he will spend the balance of the day, returning to Victoria Sunday where a full day of engagements has been arranged.

At 11, he will conduct Divine service at the Gordon Head officers' training centre followed by services at H.M.C.S. Naden and the army barracks at Work Point. At 7 he will conduct Evensong in Christ Church Cathedral.

July 12 the principal chaplain will visit Port Alberni and ded-

OTTAWA (CP)—Air Marshal L. S. Breadner, chief of air staff, announced today that "a number of Canadian Wellington bomber squadrons" has arrived in north Africa and have had "many exciting experiences" already.

Canadian airmen have been serving for many months in north Africa but, except for one fighter squadron, they have been attached to R.A.F. squadrons.

Japanese May Vote In Ontario Election

LONDON, Ont. (CP)—C. J. F. Ross, returning officer for London constituency, said the voters' list in the riding included the names of 75 Japanese who had come to the city from western Canada during the last few months. He said: "These people are Japanese of Canadian birth who have been residents of London since June 30 (the date of issue of the writ of election) and are entitled to vote."

The Ontario general election will be held Aug. 4.

To Aid Airmen

OTTAWA (CP)—The R.C.A.F. announces formation of a special cases board, to be headed by Sqdn Ldr. C. S. Dowie, D.F.C. and bar, of Leader, Sask., which will investigate problems relating to repatriated airmen.

The announcement says the aid of psychiatrists and educational officers will be enlisted by the board to determine the most suitable employment of repatriated officers and airmen unable to carry on with airmen duties.

The squadrons to which the air marshal referred are R.C.A.F. squadrons, commanded by Canadians.

Air Marshal Breadner made his announcement in addressing a wings parade at nearby Uplands air station, home of No. 2 Service Flying Training School.

The exact number of squadrons which have joined R.A.F. and United States units in north Africa was not given.

It was indicated in other quarters, however, that all parts of Canada are represented in the new force.

The air marshal's statement that the Canadian squadrons have had "many exciting experiences" in the short time they have been in north Africa was taken as an indication the squadrons have been taking part in the recent heavy attacks in the Mediterranean area.

Mr. Cruickshank was in conflict with several members as well as the minister as he protested that he had been unable to get satisfaction from any source on his claim that the Fraser Valley Milk Wholesale Co-operative should be allowed to fix the sale price to the distributing agencies, both of which were owned by the milk producers he represented.

Mr. Ilsey said the order of the Prices Board fixed this price and, unless there was some fine legal point arising from the co-operative ownership of the wholesalers and distributors concerned, he could see no exemption for them.

Mr. Ilsey denied a suggestion from Clarence Gillis, C.C.F., Cape Breton South, that dollar-a-year men in the government service who were paid by their own corporations rendered their main loyalty to their business associates.

The minister said Mr. Gillis only "thought" such charges were correct and could not prove them.

Mr. Gillis replied it was only human nature that such men should consider they would be returning to their employment in private industry after the war and that they should seek to protect the interests of private companies.

During discussion of an item of \$120,000,000 to cover subsidies which might have to be paid by the Prices Board, M. J. Coldwell, C.C.F. leader, asked how bulk purchases of commodities were made and what agencies were used.

Mr. Ilsey said no stipulation had been made by the British government or exporters in respect to firms through which bulk buying should be undertaken by Canada. The bulk purchasing division of the Prices Stability Corporation, a branch of the Prices Board, tried to distribute such buying through existing channels. The firms engaged in importation for the corporation had nothing to say about distribution of the imports, and were paid on a commission basis.

The minister said import subsidies were estimated at \$64,000,000, domestic subsidies \$40,000,000, trading losses \$15,000,000, and expenses \$1,000,000 to make the total covered by the item.

Victor Quelch, N.D. Acadia, said there was fear the United States price level might cause a rise in the Canadian price ceiling.

Mr. Ilsey replied that if prices went very high in the United States the Canadian subsidy bill would be very great.

"The payment of subsidies is an inflationary influence in itself; nevertheless, we feel that it is desirable because it is not nearly as productive of inflation as letting prices go uncontrolled would be."

Mr. Gillis said the munitions department, one of the largest buyers in Canada, did not have to observe the price ceiling. The price control law should be applied to all.

Munitions department controllers, for the most part, were "directors of most of the large corporations in this country, including some of the packing houses who are selling raw materials to that department." Within the last year, four large packing houses had been allowed to sell to the munitions department above the price ceiling.

If such men were to have unlimited authority in spending the taxpayers' money, "then the anti-inflationary machinery cannot work."

Mr. Ilsey said the purchasing division, not controllers, do the buying for the munitions department and he expressed belief they are "extremely conscientious."

\$120,000,000 Subsidies Debated In Commons

OTTAWA (CP)—Going on a 12-hour day in a drive to finish the sessional business before the month-end, the Commons made some progress Thursday with agriculture estimates, but for most of the sitting was bogged down on Finance Minister Ilsey's \$143,000,000 departmental war estimates for the current fiscal year.

Agriculture Minister Gardiner's nonwar estimates were completed at Thursday's first morning sitting, but the afternoon and evening periods were on one item in Mr. Ilsey's war estimates—\$120,000,000 for subsidies to be paid by the Prices Stability Corporation to keep prices within the ceiling.

Activities of the Prices Board were discussed from many angles and the last hour was devoted to efforts of George Cruickshank, Liberal, Fraser Valley, to obtain some undertaking that co-operative milk interests in his riding

might be allowed to fix their own prices to retailers.

Mr. Cruickshank was in conflict with several members as well as the minister as he protested that he had been unable to get satisfaction from any source on his claim that the Fraser Valley Milk Wholesale Co-operative should be allowed to fix the sale price to the distributing agencies, both of which were owned by the milk producers he represented.

Mr. Ilsey said the order of the Prices Board fixed this price and, unless there was some fine legal point arising from the co-operative ownership of the wholesalers and distributors concerned, he could see no exemption for them.

Mr. Ilsey denied a suggestion from Clarence Gillis, C.C.F., Cape Breton South, that dollar-a-year men in the government service who were paid by their own corporations rendered their main loyalty to their business associates.

The minister said Mr. Gillis only "thought" such charges were correct and could not prove them.

Mr. Gillis replied it was only human nature that such men should consider they would be returning to their employment in private industry after the war and that they should seek to protect the interests of private companies.

During discussion of an item of \$120,000,000 to cover subsidies which might have to be paid by the Prices Board, M. J. Coldwell, C.C.F. leader, asked how bulk purchases of commodities were made and what agencies were used.

Mr. Ilsey said no stipulation had been made by the British government or exporters in respect to firms through which bulk buying should be undertaken by Canada. The bulk purchasing division of the Prices Stability Corporation, a branch of the Prices Board, tried to distribute such buying through existing channels. Today's WAR NEWS Analysis

By DE WITT MACKENZIE
Associated Press War Analyst
When you weigh all the evidence, it looks as though Hitler's new offensive against the Russians is aimed primarily at the biggest-scale mass slaughter that ever titillated a paranoic mind.

Indications are that the dictator is bent on breaking through the Soviet line in the Kursk sector, of bloody memories, and executing deep turning movements which would encircle vast numbers of Russians for massacre. Soviet reserves are said to be thickly concentrated in that area.

If Hitler thus could cripple the Red forces he would be in a vastly better position to withstand the Allied invasions which are bearing down on him. It might save him from being caught between two great millstones and ground exceedingly fine. In this sense his offensive is defensive and calculated to give him a chance to achieve a stalemate in the war.

The Nazi colossus no longer is figuring on his ability to straddle the world. He undoubtedly would voluntarily give up 90 per cent of his ill-gotten gains if the Allies would allow him to keep the other 10 per cent.

We get an indication of the working of the German mind in the Berlin broadcast which proclaims that "a synchronization of the Allied command with Moscow at the present moment would be a very dangerous experiment."

In other words, the Nazis are worried about an Anglo-American invasion of the continent while their drive against the Russians is in full swing.

As a matter of fact, it was a very daring thing for Hitler to begin his offensive while the invasion threat was so strong. Indeed, the lateness of the start of his attack undoubtedly was due to his inability to guess just what was in the wind. Since he finally took the plunge, it would seem he must have been impelled by one of two things:

1. Decision that the Allies

wouldn't invade western France in the near future and thus place him between the millstones.

2. Confidence that he could counter an Allied invasion attempt while still engaged with Russia.

The first explanation looks like the more reasonable. So it's likely the Fuehrer's offensive is aimed primarily at crippling the Russians for the sake of ensuring something like his present status rather than to acquire the resources which he needs so badly for further aggression. All he asks of fate is that he be permitted to hang on.

Butter by the Bucketful, 1868

The commercial butter scales shown here operated in the Montreal market in 1868. There was apparently no shortage then. Judging from the picture, farmers brought the butter to these scales in buckets of varying sizes.

In deference to the troubled times, no jubilant celebration marks the occasion of Libby's Diamond Jubilee Year. But it is fitting that Libby's, after 75 years (31 years manufacturing in Canada) of consistent peak quality in processed foods, should now re-affirm those fundamental principles of quality, value and fair dealing which have consistently governed the Company since its inception.

At Libby's nothing matters more than quality. With each of its more than 100 fine foods, Libby's has sought first to attain the highest possible quality, then to hold it uniform through every pack. Libby's Label on any food product identifies the contents to every housewife as supremely good.

Libby's add top value to finest quality... and there could be no stronger evidence of Libby's fair dealing than the now famous "double your money back" offer on Libby's products. Try any food or condiment bearing Libby's Label. If you don't agree it is the best you have tasted return the label and Libby's will pay you double the purchase price.

During the lazy-appetite days of July and August Libby's suggest you try Libby's Prepared Mustard. It's an appetite-feaser that will help ration-planned meals.

FRIDAY, JULY 9, 1943

Down To Details

OUTSTANDING IN THE BRIEF WHICH Mr. R. C. Vaughan, president of the Canadian National Railways, presented to the House of Commons committee on reconstruction yesterday are four specific items of proposed expenditure which the economic experts of the publicly-owned transportation system have reduced to easily-understandable form. These explain in simple language the amount of money involved, what purpose such expenditures are intended to serve, and how much employment they are expected to furnish. Here are the items which stand out in a document remarkable for the lucid character of its compilation and its forthright approach to the manifold problems that will face the country when the conflict ends:

1. Capital works expanding the company's field of operations: \$59,500,000—\$8,800,000 man-days.
2. Self-liquidating projects: \$206,773,000—30,806,000 man-days.
3. Desirable but economically-marginal projects: \$270,000,000—40,200,000 man-days.
4. Projects desirable but not productive of economy to railway: \$103,537,000—15,500,000 man-days.

Mr. Vaughan knows and the public is well aware of the fact that it is one thing to draw up a budgetary scheme involving large sums of public money, and a different matter altogether to persuade the duly-elected representatives of the people to sanction the spending of that money—regardless of the urgency of such a policy and the long-term benefits it would seem to assure. Nor are we competent to pass judgment on the intrinsic merits of the Canadian National Railways' contribution to the ever-growing pile of practical plans for dealing with the industrial and other complexities in the early postwar era. But by reducing its main proposals to simple terms in the matter of money and the returns anticipated from the expenditure of that money, the public has been presented with information differing refreshingly from those generalities which furnish little or no practical guidance. In this respect alone, therefore, Mr. Vaughan's brief contains definite directives for government action.

We hear complaints from some quarters that too many postwar plans already are in existence, that the public is apt to become confused by their variety and, in some instances, by their Utopian character. This is not sound argument. The fact that so many citizens, the "little people" of Canada as well as the great corporations, are giving thought to the delicate and difficult problems of the peace is an encouraging sign of the times. It should suggest to all governments that they lose no time in considering those aspects of financing which fall within the essentially practical realm.

Younger Officers

FIFTY-SEVEN HAS NOW BEEN SET AS the maximum age for officers in operational units in the Canadian army overseas. In nonoperational units the maximum is to be 58 years. On reaching these ages, officers may be returned to Canada for service for another two years before retirement.

The ruling embodying these age limits is in line with the trend toward younger officers in the army. Retirement of the older ones will open the way to more rapid advancement for the young men who are now being graduated from officers' training camps such as that at Gordon Head at a steadily increasing rate.

The truth of the oft-repeated assertion that this is a young man's war finds fresh support in every development. Not only is it a young man's war from the standpoint of the strenuous demands which call for a man to be in prime physical condition, but equally so from the standpoint of receptiveness to new ideas and new methods—which is a characteristic of youth. Fixed ideas of older men in key posts have too often proved to be impediments. It is encouraging that in the operations ahead, youth will come more definitely into its own.

Thin End Of The Wedge?

ONE OF TURKEY'S LEADING NEWS-papers published an editorial yesterday which apparently caused a stir in more than one Balkan capital. Reduced to a few words, it argued that "international banditry" must be stamped out for all time, that Italy should immediately withdraw her troops from Albania, implying for good measure that if Mussolini knew when he was well off he would take his country out of the war by one bold political stroke.

The significance of the newspaper advice lies not especially in the procedure advocated. That is neither novel nor new. But in view of the fact that Turkey is "naturally" disturbed by the propinquity of Axis-occupied Italian island territories on her southern and western coastlines, plus the fact that 700,000 of Albania's 1,000,000 population are Moslems, the underlying meaning of the editorial becomes easily understandable.

What effect it will have on the deflated little imitation Caesar in Rome, of course, is another matter altogether.

Much has been written here and elsewhere about Turkey's determination to keep out of the war if it is humanly possible. Nothing has transpired so far as the general public of the United Nations is concerned to suggest that there is the least likelihood of the men of Ankara charting a course that might lead to active participation in the conflict. And the newspaper article may be just a feather tossed into the wind. But hints have been dropped of late that the Allied governments are making progress in negotiations to obtain permission to ship food, medical supplies, and non-military materials through Turkish territory to the Soviet Union. Such a concession, of course, would render valuable assistance to the anti-Axis cause without straining to any great extent Ankara's neutral state. Berlin would rave at once; but could the Fuehrer do much about it under all the circumstances which now confront and worry him?

An excellent railway connection between Egypt and Turkey could be used for the purpose in view. It was not safe to use it until after the Axis had been cleared out of Africa. It is safe now; and adequate British and American rolling stock is available in Egypt to cope with the heaviest of traffic movements. The Mediterranean route also is once more secure for Allied shipping, and it is a much simpler matter at this stage to implement promises of material aid to Turkey than at any time since Italy thought she could win a cheap victory.

In other words, the Ankara government has the best of reasons for falling in with suggestions regarding the transshipment of materials to Russia. Implemented promises, by the way, are something the Turks understand. Germany's promises under several economic agreements still remain promises. The effect, if any, of the editorial to which we have referred, therefore, will be awaited with interest.

Synthetic And Raw Rubber

SO FAR NEITHER EXPERT NOR LAY-man has been able to determine whether synthetic rubber will be able to compete economically, after the war, with natural rubber from the plantations of the Far East and from those which are being opened up in Latin America. We do not know even whether synthetic rubber will have been perfected sufficiently, before Hitler and Hirohito can be whipped, so that it could replace the natural gum if price were not involved. We do know, unless the computations of Dr. Robert V. Yohe, superintendent of the United States government-owned synthetic rubber plant in Louisville, Ky., can be disproved, that 10,000 American workmen can make the same quantity of rubber out of butadiene and styrene that it would require 300,000 coolies to take out of Far Eastern trees.

Let us suppose what does not seem unreasonable—that chemists kill the bugs that now prevent successful manufacture of all-synthetic automobile tires, or assume that when the war ends it will find our neighbors with a synthetic capacity equivalent almost to peacetime demand for rubber, will it mean that a capacity will have been installed at a cost which might preclude the synthetic product from competing with the cost of raw rubber as at present manufactured?

The question will arise, according to one American skeptic, "whether we shall close down that plant, and let it go to rack and ruin, or whether we shall write off some reasonable portion of the cost against this war and keep the butadiene, styrene and buna plants in operation." On the one hand—and the same question will apply to our Canadian government-owned plant—there will be a school of economic thought to say that an industry unable to stand squarely on its feet does not deserve to be propped up. On the other will be the question: "Can we afford to let this capacity disintegrate, and throw ourselves once more into a position where, as in December of 1941, we can be cut off by an enemy from a product upon which the American way of life depends very greatly?" But perhaps these questions will be answered by the progress and length of the war and the demands of peacetime economy. They are none the less interesting now.

Foolish And Vicious

SOME PEOPLE HAVE PECULIAR WAYS of showing their objection to something which annoys them. A news item, for example, relates that a widow in the east has admitted sending six postcards, which the government considers scurrilous and defamatory, to a college engineering student who had been deferred to pursue his studies while her brothers and sons were made liable to military service. Somebody should tell her and others like her, gently but firmly, that the whole purpose of the Selective Service system is to permit competent Canadian authorities to decide how and where each young man can best serve his country. Unless there is concrete evidence of dodging—and this woman concedes she knows little about the young man she maligned—it is extremely unfair for anybody to reproach one who has been deferred.

Generalissimo Chiang Kai-shek's assertion that "this is China's darkest hour" refers not to the military, but to the economic situation. China, despite shortage of equipment, is giving a good account of herself on the military front. But on the economic front, prices have got out of control and are spiralling upwards at a ruinous rate. As the Canadian Institute of International Affairs points out, this inflation is a warning of other troubles to come.

Bruce Hutchison

LARGER PROCESS

THE ONTARIO PROVINCIAL election campaign, now under way, is much more than a contest between a government and an opposition. It is more than an unpleasant interlude for the badly-puzzled Mr. Bracken. It is part of a much larger process which we have already seen in British Columbia and which we shall finally see in the nation at large. Let us look at it.

To begin with, the Liberal Party in Ontario is pretty conservative, as is the Liberal government at Ottawa. The only really radical party is the C.C.F. Somewhere to the right or left of the Liberal Party—just where, no one knows—is the Conservative Party led by Colonel Drew.

Now, Colonel Drew naturally expected that when his time came to fight an Ontario election his new leader, Mr. Bracken, would swarm to his assistance. But Mr. Bracken is taking no part in provincial politics, because he is too busy at Ottawa. He is taking no part in four federal by-elections in August for the same reason. Mr. Bracken is too busy as a political leader to have any time for politics.

But it appears that some of Mr. Bracken's lieutenants are not too busy for politics. Some of his supporters in Parliament propose to help Colonel Drew out. Indeed, they can hardly do less. For if they refuse to join in the fight their local party organizations in Ontario will never forgive them, and they have to keep their friends against a federal election next year. So we may witness the spectacle of Mr. Bracken (with no parliamentary duties) too busy to appear in Ontario while members of Parliament, exhausted by a long session, still have time for politics.

IMPORTANT FACTOR

WHILE THIS remarkable sight will intrigue the public, it is not important. The important factor in the election is the C.C.F. If the C.C.F. can make itself the second-most-powerful party in the next Ontario Legislature, no matter what government is formed, then it will be obvious that the issue of our times is clarifying in Ontario as elsewhere. The issue is, of course, the existence of private enterprise or the substitution of Socialism in its place.

One way or another this issue will express itself in practical politics. A party of Socialism, whether it be the C.C.F. or some other, will challenge the other parties and eventually eliminate one of them, or force them together, as in British Columbia. Sooner or later this will happen in federal politics as well. Perhaps that is Mr. Bracken's calculation. Perhaps he does not expect to be able to carry the country next year but does expect that in a post-election stalemate Mr. King may have to take him into a coalition. We shall see.

But all these calculations are in black and white and there is never any black or white in human affairs, only grey. They are placed here from time to time in black and white simply because in a newspaper column there is never room for any refinement. You have only 800 words in which to cover a subject invariably worthy of 8,000 or more, so you work quickly in a kind of crude diagram; and then, naturally, clever citizens write letters to the editor picking holes in your argument and development in finite refinements in your theory.

SYMBOLICAL

THUS IT IS necessary to point out here that the issue actually is not Socialism versus capitalism, as one has to say from time to time for the sake of brevity. Such an issue is purely symbolical and academic. There never has been such an issue in Canada and there is not now. There never has been any pure capitalism, not in the last 50 years, and certainly there is no chance of any pure Socialism. There is and will continue to be a combination of both.

It is amusing, therefore, to hear capitalists talk as if the state in the good old days never intervened in business; because the state has usually supplied the basic dynamic of business. It made the railways possible. It brought in the immigrants who built the business of the west. It built many of the electrical developments which make private manufacturing possible. It erected tariffs which made possible most of our manufacturing industries. Likewise it is just as absurd to hear the Socialist talking of the day when the state will manage all private business, including the candy store at the corner.

On the contrary, Canada's system has always been a healthy empiricism, a willingness to experiment, to compromise and to combine the energies of the state with the energies of private initiative. The fact that the state will expand its activities after the war does not mean that private business will contract. It should mean that, in a healthier economy, business should expand enormously; and its expansion should not damage the state, but strengthen it, by enabling it to finance, out of a prosperous nation, larger public services and social reforms.

GEMS OF THOUGHT—ENRICHING THE NATURE

"Every man feels instinctively that all the beautiful sentiments in the world weigh less than a single lovely action."—J. R. Lowell.

"It is not enough to have great qualities, one must make good use of them."—La Rochefoucauld.

"Good, the more communicated, the more abundant grows."—Milton.

"Human affection is not poured forth vainly, even though it meet no return. Love enriches the nature, enlarging, purifying, and elevating it."—Mary Baker Eddy.

The Strained Luftwaffe

By B.T.R., Winnipeg Free Press.

OTTAWA—The extent to which air power is changing the military situation in Europe is a subject on which expert opinion is naturally reluctant to make dogmatic claims, since there is no precedent in the book of warfare upon which to base an exact appraisal. But on the evidence available, many observers have come to believe that the German air force is no longer capable of performing indefinitely the tasks of air defence of German-held Europe.

Recently, Air Chief Marshal Sir Christopher Courtney told press men in Ottawa that the German air force is "very seriously stretched."

WAITING FOR INVASION?

The question follows whether the Germans are merely holding back their air forces for the day when invasion armies start to land on German-held territory.

Even if they are, which is probable, this would not explain the whole situation of the German air force in the face of the growing pressure of Allied air offensive against Europe.

Some of the details, obtained from reliable sources, of the German air power position shed light on the contention of Sir Christopher Courtney.

A DECISIVE PHASE

In any case, the true perspective of air power is now becoming apparent, and the great air action reported from day to day in 1943 may constitute a decisive phase in the war, just as in the textbook of sea power, a great fleet in action may decide the course of a war. The sea battle of Trafalgar was decisive in its effects upon Napoleon's fortunes, though the later battle of Waterloo on land finally sealed his doom.

The German air force represents, according to informed estimates, a front line force of between 4,000 and 5,000 aircraft. As a partial basis of comparison, recent figures given by Air Minister C. G. Power showed that the air training fields of Canada have graduated more than enough air crews to man 15,000 combat planes.

FIVE MAIN AIR FLEETS

The German Luftwaffe comprises five main air fleets, according to reliable information. They are:

1. The air fleet operating in northern sectors of the Russian front, under command of Kellner;
2. the air fleet in the Mediterranean area, under Kesselring;
3. the air fleet operating in Germany, the Low Countries and France, under Sperrle;
4. the air fleet operating on the southern sectors of the Russian front, under Von Richthofen; and
5. the air fleet based in Norway and Finland, under Stumpff.

RATE OF LOSS IS UP

It is believed that Kellner and Von Richthofen have, between them, about 2,500 front line aircraft, representing about half the German air force. From recent news reports, it is evident the German rate of loss is rising on the Russian front, and these portions of the Luftwaffe are believed to be not only pinned down, but also in need of reinforcements.

This may be a significant point.

WAR—25 YEARS AGO TODAY

July 9, 1918—Von Kuhlmann was succeeded as German foreign minister by Admiral Von Hintze. Fleri, on the Albanian coast, captured by Italians and French. The British conducted a naval air raid on Ostend and Zeebrugge.

when extensive land operations develop in the west or in the south.

Sperrle's air forces in Germany and western Europe are estimated to number about 1,500 front line planes. This includes night fighter squadrons acting in defence against the heavy bombing offensive.

IN HOLLAND AND DENMARK

Possibly 350 fighter planes are based in Denmark and Holland and neighboring German territory, chiefly as defence to be concentrated against Allied landings.

But Sperrle must provide cover, not only for industrial targets of Allied bombers in the Ruhr and elsewhere, he must also attempt to cover U-boat bases on the coast and furnish patrol along the entire French coast.

It is obvious Sperrle's tasks are increasing enormously week by week.

In Norway and Finland, Stumpff is believed to have only 200 planes, a figure regarded as a reduction below the danger mark unless the German decision has been made to abandon Norway if the Allies attack.

MEDITERRANEAN LOSSES

In the Mediterranean, the figures leave Kesselring with about 800 first line aircraft, and his air forces are steadily suffering casualties, as the news indicates. It is estimated that Allied operations in the Mediterranean area in the past six or seven months have compelled the replacement of Kesselring's forces almost twice over.

During May, for instance, the Axis air forces in the Mediterranean lost 337 aircraft, compared with 108 British and American lost in the same theatre.

Summing up the situation, the truth of Courtney's observation that the Luftwaffe is very seriously stretched becomes apparent in the light of the relative small margins left to the German air force to transfer any considerable number of squadrons from one theatre to another.

None of the German air fleets can afford to send help to any other, without risk of decreasing air protection below danger levels. Italian air strength is now rated as weak.

This is the situation produced by the Allied air offensive against Germany, and that offensive is still below its peak. It is a situation in which openings for land attacks are appearing in many places. The drainage of German air power—which was shaped for a short war—makes it reasonable to expect that the military situation on all European fronts will show revolutionary change this summer.

GARIBALDI'S CURSE

From Winnipeg Free Press

"If ever England should be so circumstanced as to require the help of an ally, cursed be that Italian who would not step forward with me to defend her."

Do these words ring these days in the ears of Benito Mussolini? He knows them, who said them, and the occasion upon which they were said.

They were written in 1854 to Mazzini, the Italian patriot in London by Garibaldi, and were in acknowledgement of unforgettable services rendered by England and the English people to the cause of Italian liberation.

Is the word "unforgettable" inappropriate in view of all that has happened in the past eight years?

Not, it is clear, in the opinion of Churchill. His references in his speeches to Italy and Italians reveal his abiding faith that the people of Italy, apart from members of the Fascist hierarchy, hate the war with Britain, and are anxiously looking forward to an opportunity to seek peace. For their encouragement to this end, as Churchill said at Washington, methods both of the stick and the carrot are being employed.

Consultant Tells Retailers How To Cut Costs

How retailers could help their businesses during these trying times and in the event of future shortages, was explained by R. M. Syers, retail trade consultant with the Wartime Prices and Trade Board, at a meeting of retail merchants in the Chamber of Commerce auditorium, Thursday evening.

Advising merchants to cut their costs of operation, Mr. Syers explained that this could be done by adopting self-service in many lines of merchandise, thus helping overcome the manpower shortage, too, he said.

He also recommended pooling deliveries, and advised the merchants to keep a simple form of bookkeeping, even in the smaller establishments. Continued advertising, even though less goods was available, was necessary to keep the store's name before the public, so a ready market will be available when goods are once more available in abundant quantities, he said.

Mr. Syers said that, in spite of shortages during the past year, business conditions everywhere had been good, partly because of the increased purchasing power on the part of the population.

He emphasized, however, that drastic reduction of manpower in certain industries made the future problematical in certain lines of retail goods.

Among questions asked later was one concerning the scarcity of children's shoes. Mr. Syers said this had resulted from the fact that manufacturers had found it more profitable to use what leather was available in adult footwear. However, he promised that the government was taking action in the matter and that the situation would be remedied soon.

He invited merchants to submit their difficulties and suggestions, and urged them to keep in touch with Wartime Prices and Trade Board officials with regard to their problems.

The speaker was thanked by George MacDonald, Frank I. Doherty presided, and T. H. Johnson, C. H. Booth and J. Conrad of the local office, represented the W.P.T.B.

Navy Band Sings And Plays at School

The Royal Canadian Naval Band played and sang at the fourth in the Summer School Concert Series in the Victoria High School auditorium Thursday morning.

The diverse selections played by the band under the direction of Lieut. Harry Cuthbert were announced and commented on by Lieut. F. C. Hardwick.

Typifying the characteristic modern note in the works of the contemporary American composer, Morton Gould, the first number, the "Red Cavalry March," embraced the themes of two Russian peasant songs, "Cavalry of the Steppes" and "Song of Tachanka." In both these and the Mozart Overture that followed, the woodwinds played a prominent part, binding the full orchestral body with silver threads of tone. The opening force of this overture would immediately shatter the opinion of many that Mozart wrote solely for the drawing-room.

Popular among the novelty features on the program was the Rhapsody Rumba, which piece is practically self-explanatory. The torrid tempo maintained during the playing of this native Cuban music is accented by rhythmic passages by oboe, cornet, bassoon, trombone and flute.

Another clever and enthusiastically-received selection was the "Swanee Saitre" in which the familiar negro tune is swung, squeaked and shouted in six different flavors—as done at Naden, in the Missouri Hills, at the Empress on a Saturday night, in the Panicle Room, the Commodore and as a Bedtime Story complete with fire-engine whistles.

A xylophone duet by Harold Beise and Carl Kellett, the "Thin Red Line March," and a Mexican song, "Zacatecas," gave the members of the band plenty of scope for varying their technique.

The audience joined in the singing of "I've Got Sixpence," which followed the United Nations Rhapsody, and expressed its appreciation in extended applause at the close of the program.

125 Years of Age

VANCOUVER (CP) — John Jalovec of Vancouver said Thursday he had met an Indian woman, Mary Ashnola, in the Keremeos district of British Columbia whose relatives claimed her age exceeds 125 years. She is still active, enjoying a pipe each day and making a 300-foot trip to a nearby stream. She said she had never been outside the immediate district.

COTTON Temperature Tamers

Play in them... work in them... live in them and wash them. Cottons are summer naturals. When it's hot, THEY'RE cool, YOU'RE lovely. In smartly-fitted two-piece and one-piece belted styles with short sleeves and cool notched collar lines, they are designed for warm weather. Unborn Baby's Advt. Gets Parents a Home

SEATTLE (AP) — "I am a baby who will be born next month," said a want ad. in the Seattle Times. "My daddy is here in the army, and my mommie and I are staying with him in a hotel room, because they can't find a nice furnished apartment, or house, where they will be able to take good care of me. Will someone please help us? Please cut this out, keep it, tell your friends about me, and don't forget."

"Daddy and mommie," who are Cpl. and Mrs. Robert Lawrens, formerly of New York City, found the home today.

Dr. Paul Davies, a dentist, and his wife offered to share their home with them, explaining their own baby had died when they lived in similar cramped quarters, and they want a baby in the house they have now.

When the Lawrens' baby arrives, too, it will have the layette they had purchased for their own.

Premier and President's Daughter Confer Here

Premier John Hart, left, greets Mrs. John Boettiger, associate publisher of the Seattle Post-Intelligencer. Next to Mrs. Boettiger in the picture is Mrs. John Hart and Mrs. Boettiger's 16-year-old daughter Eleanor. Mrs. Boettiger, who is a daughter of President and Mrs. Roosevelt, discussed highways and railways for northern British Columbia today in Vancouver, following preliminary talks in Victoria Thursday. She and her daughter dined with Lieut.-Governor and Mrs. W. C. Woodward in Vancouver Thursday night.

Navy Auxiliary Help Stamp Out U-Boat

Members of the Women's Auxiliary to the Royal Canadian Navy, under the president, Mrs. Massy Gooldeen, are lending a hand in the Dominion-wide campaign, now under way, to "Stamp Out the U-boat."

The campaign is planned to purchase 15,000 extra depth charges for the Royal Canadian Navy's fighting ships. Canadians are asked to buy \$1,350,000 worth of war savings stamps to pay for

these depth charges. The quota for British Columbia and the Yukon is 1,200 of the lethal sea weapons, of which Victoria is asked to provide 175. That will call for \$15,750 in stamps. Every cent collected during the five-week campaign which ends July 31, will go toward buying depth charges, according to a statement from Minister of Finance J. L. Liles.

Each \$90 worth of stamps represents the cost of one depth charge. The purchaser of one dollar's worth of stamps has the privilege of sending a "personal greeting" to the Axis on a specially-prepared "Stamp-o-Gram." When 90 of these messages are completed, they will be attached to a tally sheet for all to read. Then they will eventually be wound around a real depth charge used in action in the Atlantic. In that spectacular way, Hitler and his "gang" will receive an unusual number of "special delivery" messages.

The women of the R.C.N. Auxiliary are in charge of supplying stamps to vendors, small stores and business establishments. They will make regular calls from now until the end of the month to see that proprietors of stores are well stocked with the stamps and "Stamp-o-Grams," which they will paste right on the tally sheet in the store. Victorians are asked to visit their neighborhood store and help "Stamp Out the U-boat" by buying war savings stamps.

cussed for the superfluity store the chapter will arrange at the forthcoming Victory Fair. Letters were read from Victoria East Gonzales Company Girl Guides, and from the Travelers' Aid thanking them for financial assistance. Child Welfare convener, Mrs. H. J. Davis, reported having visited a needy family and arranged a collection of shoes and clothing from the members to be taken on her next visit.

Mrs. W. F. Love presided at the meeting of the W.A. to the Anti-aircraft Regiment, held on Wednesday afternoon at the Y.W.C.A. Plans were made for a dance to be held at the Crystal Garden in the near future. Nominations were made at this meeting and the election of officers will be held next month. A report on the tea held recently at the home of Mrs. H. L. Robinson, Transit Road, was given, showing the auxiliary cleared just over \$100 for the funds.

To celebrate the 70th anniversary of St. Mary's Church, Metchosis, the church committee and W.A. of the church will sponsor a country fair, to be held at the home of Mr. and Mrs. John Leeming, Witty's Lagoon, from 3 to 6 on July 24. Attractions will include home cooking, farm produce, needlework, books and handicrafts, games, ice cream, magician and clown. Afternoon tea will be served.

Clubwomen

Britannia Lodge L.O.B.A. held a successful sale of work recently. Members are asked to meet at the Scott Building at 10.30 a.m. July 11 to attend divine service at Centennial Church. Next business meeting will be held in Orange Hall, Courtney Street, July 20 at 8, Mrs. C. Leask presiding.

Saseenos W.A. of Holy Trinity Church, Sooke, will hold their annual garden party at the home of Capt. and Mrs. N. E. Fahweather, Saseenos, Wednesday. Tea will be served by Mrs. Gillatt, Mrs. Cogswell and Miss Ravere, Mrs. Scheiber and Mrs. Martin will have a stall of home cooking and vegetables.

W.A. to Typographical Union No. 201 will hold a garden party Thursday at the home of Mr. and Mrs. W. R. Dunn, 319 Burnside Road. The affair will be opened by the president, Mrs. W. E. Skett, at 2.30. Home cooking, needlework will be sold, and afternoon tea will be served. Take Burnside car to end of terminus.

Gonzales Chapter, I.O.D.E., met at headquarters on Tuesday with the regent, Mrs. Walter C. Nichol, in the chair. Reports from various standing committees were read, including that of the war services convener, Mrs. Curtis Sampson, which showed that 73 articles, with a total value of \$83.65, had been sent in to Municipal Chapter for distribution to the armed forces, also 200 magazines and nine books. Echoes secretary, Mrs. N. F. Ferris, announced the coming visit July 14 of Mrs. R. J. Sprott and Mrs. W. N. Martin, president and provincial war services convener, respectively. Plans were dis-

I.O.D.E. Tea Aids Chapter Funds

Sum of \$60 was realized for the general funds of Sir Matthew Baillie Begbie Chapter, I.O.D.E., Thursday afternoon, at a successful tea and sale held in the clubhouse of the B.C. Electric Tennis Courts. Mrs. R. T. Murphy, regent, received the guests, assisted by the first vice-regent, Mrs. G. E. Warner.

Owing to inclement weather, the affair, originally planned as a garden party, was held indoors, where the rooms had been effectively decorated with summer flowers. The tea table was covered with a green linen cloth and centred with a bowl of Ophelia roses and sweet peas. Presiding were Mrs. J. E. Flack, honorary regent; Mrs. H. D. Parizeau and Mrs. P. Cunningham.

Mrs. Charles T. Teasdale was the general convener, and the home cooking, Mrs. J. Tyrell, Mrs. W. Barrowclough; games, Mrs. T. Brown, Mrs. E. Dakers; cake contest, Mrs. J. W. Cox. Mrs. D. Osborne was at the receipt of custom.

Lake Hill Community Centre will meet Tuesday at 8.

R.C.A.S.C. Band Play 'Douglas St. Parade'

A march entitled "Douglas Street Parade," composed by Garvey Hughes, will be the closing number of the band concert program to be given in Beacon Hill Park Sunday afternoon at 3 by the Esquimalt Garrison Band, H.M. Royal Canadian Army Service Corps.

The concert is being held under auspices of the Victoria Centenary Committee, and will be led by G. E. Bower, bandmaster.

Here is the program: O Canada; march, "The Middy"; overture, "Rosamunde"; waltz, "Pluie D'or"; selection, "The Show Boat"; song, "Romance from the Desert Song"; Sheila Conway Marmos; "Prelude in C Sharp Minor," by Rachmaninoff; cornet duet, "Mac and Mac," musicians Mills and Petticrew; symphonic paraphrase, "Smoke Gets in Your Eyes"; song, "Morning"; Sheila Conway Marmos; "Grand National Fantasia," "Episodes in the Life of a Soldier"; entracte, "A Cottage Small"; march, "Douglas Street Parade"; God Save the King.

James Bay Fire Hall Value Already Proved

Satisfaction was expressed today by Ald. Archie Willis, fire wardens chairman, over the manner in which a residence on Superior Street had been converted into the auxiliary James Bay fire hall.

The building was inspected during the week by the wardens, who found it had already proved its value in reducing the time required to attend fires in that locality. The building itself had been well adapted to the purpose for which it is used.

At their meeting wardens decided to recommend to the City Council acceptance of a tender from Gordon Campbell Ltd. to supply 173 pairs of trousers and a chief's uniform at a cost of \$1,695.90. Purchase of 87 caps from D. Spencer Ltd. at \$261 will also be recommended.

The wardens approved the Gutta Percha Rubber Co. offer of hose for \$416.50; one from E. R. Ciceri and Co. for \$416 worth of that equipment, and the Automotive Sales Ltd. tender of \$333.20 worth.

The council will be asked to send Fire Chief Alex Munroe to the International Fire Chiefs' Association convention in Chicago Aug. 31 to Sept. 2, and will be informed Robert Eastham, Henry Dyer and Charles Reid have been promoted to the rank of acting lieutenants.

Fall From Window Accident, Say Police

Detective Henry Jarvis said Thursday he had secured sworn statements from three naval ratings and a girl stating that Pte. Frances Adair, 18, C.W.A.C., Vancouver Barracks, fell and was not pushed from a sixth-floor St. James Hotel window early last Tuesday morning.

The girl miraculously escaped death in the four-story fall to a cafe skylight. She is now confined to St. Joseph's Hospital, suffering from shock, cuts, extensive bruises and a fractured ankle.

The girl had informed Detectives Jarvis, G. G. Clayards and P. W. Richards that she had been struck on the face by a naval rating and then pushed across the room so that she fell through the window.

Detective Jarvis said he had advised Claude Harrison, city prosecutor, that unless further evidence was secured, military authorities should be left with the case.

Rockland Ave. Homes To Become Apartments

Two applications for permission to convert former big homes on Rockland Ave. into multiple family dwellings were conditionally approved by the city zoning board of appeal at its meeting Thursday afternoon.

One of the properties was that of Mrs. Mabel P. Galt, 1320 Rockland, which the owner wishes to change into a 10-suite apartment. The other is 1392 Rockland, for which the Royal Trust Co. acts as agents. The plan there is to create six suites.

The board approved Mrs. Ivy M. Anders' request for permission to extend a garage at 968 Heywood and granted F. Haigh authority to convert 948-Bal-moral into a two-family dwelling.

Victoria A.R.P. Moving To New Headquarters

Transferring of the city A.R.P. headquarters from the improvised office at the rear of the City Council Chambers to the premises formerly occupied by the Sunshine Inn is expected to be completed next week, Insp. A. H. Bishop, Victoria A.R.P. controller, announced today.

The new quarters, which have been painted and decorated for the A.R.P., have a reception room, separate offices for Insp. Bishop, and Capt. D. J. Proudfoot, chief warden, a lecture room, store-room and ladies' cloakroom.

Emergency Mask Centres

If and when Victoria is subjected to an air attack, civilian gas respirators will be made available to the staffs and patients of Royal Jubilee and St. Joseph's Hospitals.

Insp. A. H. Bishop, Victoria A.R.P. controller, said Thursday that 1,000 masks were being stored at each hospital.

He said there was still hope that the respirators would be issued free in Victoria.

King Honors Brett

WASHINGTON (AP) — The honorary rank of Knight Commander of the Order of the Bath, military division, has been conferred on Lt.-Gen., Geo. H. Brett, commander of the U.S. Caribbean defence command, by King George VI, the War Department announces. The award, in recognition of Brett's services in the southwest Pacific as commander of Allied air forces, was presented at a ceremony at the British Legation in Panama.

Recalled By Nats

CHATTANOOGA, Tenn. (AP) — Lew Carpenter, bespectacled right-handed hurler, who has won three and lost three for Chattanooga since he joined the team June 15, has been returned to the parent Washington Club, the Lookouts' front office announced Thursday.

The office said it was understood Washington would send Carpenter on to Minneapolis.

Lew's latest triumph was a three-hitter in the opening game of a doubleheader against Little Rock.

DODGERS SIGN MACPHAIL

BROOKLYN (AP) — Brooklyn Dodgers announced Wednesday that L. S. (Lee) Macphail Jr., son of the club's former president, has been added to their minor league and scouting staff.

Macphail resigned as general manager of the Toronto Club of the International League at the close of last season to accept a commission in the United States navy, but failed to pass his physical examination.

Rough, cracked, sunburned lips are painfully sore and unsightly—the cracked surfaces easily infected by dangerous germs. Get relief the quick, sure way with Lypsil! Its wonderful emollient action instantly soothes the wounded membranes and seals them against germs and impurities. It softens the painful, cracked surfaces, hastens natural healing. Lypsil acts as a protective film between the delicate lip-skin and the burning rays of the sun. Get Lypsil at your store today. Use it regularly to soothe and protect your lips. Sold everywhere in handy stick form.

LYPSYL Natural Red or Invisible White for Men and Women.

Sports Mirror

By PETE SALLAWAY

WITH his first Victoria promotion just a memory matchmaker Jack Price strolled into the office today and revealed plans for the future. In recent days Price has learned of the presence near Victoria of the Canadian featherweight champion and he would like nothing better than to arrange a title match and stage it here.

"You can quote me as saying I am pleased with the reception received in this city," Price said. "Everybody has treated me well and I have made a lot of grand friends. I want to take this opportunity of thanking everybody who assisted me in staging the Harvey Dubs-Young Tommy Burns bout." Questioned further about the title fight Price remarked: "I can't tell you the champ's name but I know he is an Italian and I feel certain he would be interested in a championship fight. And the logical opponent for him would be Kenny Lindsay of Vancouver. As you probably know Kenny can't make the bantamweight limit now and would be just the boy to handle this assignment. I'm going to sleep on it for a couple of nights and then make up my mind. I just have to assure myself that Victorians would go to such a fight and then go ahead with the arrangements."

There was nobody more disappointed over that light failure for the Dubs-Burns bout than Price. "I wanted the electrician to test the lighting in the afternoon and he told me to mind my own business as he knew what he was doing. I would have liked to get my hands on him during the fight. That light failure just ruined a grand fight."

Exhibition turned in by the Navy is good evidence the blue-jackets are just another ball team without Jimmy Dumeah on the mound. Wednesday night they lacked the fire and punch that marks their play any time there on the mound. But, after all, one man can't handle all the pitching chores.

Western Prince Good Investment

Winnings Total \$8,395

By CHARLES EDWARDS
TORONTO (CP) — Windsor softball umpires are trying to beat the price ceiling—asking an increase in game fees—from \$2 to \$2.50. Maybe they figure that if fans pay more now for the pop bottles they throw, the umpires should get more for stopping them.

When Mrs. D. C. Coleman's colt, Western Prince, won the Canadian Derby at Winnipeg, it brought his total winnings to \$8,395—pretty fair for a \$1,000 original investment. The Derby victory brought a reward of \$500

each to trainer Duke Campbell and jockey Gus Dye.

Fit Lt. Harold (Ike) Sutton, D.F.C., missing after R.C.A.F. operations overseas, was one of the greatest rugby football players ever developed in Edmonton. Sutton was a star halfback with Edmonton Eskimos, even among the numerous imported American stars playing in the Western Union in his day.

Rules committees of the N.H.L. and C.A.H.A. are likely to meet in Toronto Aug. 14. Decision will be made then on the proposal to permit forward passing up to centre ice. Meanwhile it is not certain whether the N.H.L. will have any players left who can pass a puck that far.

Bobby Hampton, veteran Winnipeg centre forward, banged in six goals as United Western beat Army 9 to 1 in a Manitoba victory soccer league game. Sub-Lt. Jack Sibbald, Woodstock, Ont., badminton star who won the Canadian doubles championship four times, is completing his navy training at Halifax. Howard Bennett, winner of the Canadian junior golf championship at Mount Bruno, Que., in 1940, is studying for an army commission. Jean Saunders of Calgary, who won international tennis fame in England before the war, has enlisted in the R.C.A.F. (W.D.). Red Kress of Toronto Maple Leafs says Manager Burrell Grimes has the most complicated set of signals in baseball. Other clubs can't hope to figure the signals "when even our own players have trouble that way."

Andersson Fails To Break Haegg's Mark

STOCKHOLM (AP) — Arne Andersson, Sweden's latest track sensation who last week ran the fastest mile ever recorded, failed Thursday to shatter Gunder Haegg's 1,500-metre world mark of 3:45.8.

Competing before a capacity crowd of 20,000, over a rain-soaked course, the 27-year-old "flying school teacher" was timed in 3:48.8, three seconds slower than Haegg's record, in winning by 15 yards over his nearest competitor.

"The track was too heavy to set a record," Andersson said.

Balata Ball Gives Golfers Distance

DETROIT (AP) — The balata ball that baseball men came to despise is by some tests giving the golfer more distance this summer on his booming drives. This was on the authority Thursday of Jimmy Demaret, Detroit pro, whose tests have changed doubting golfers into cheerful contributors of old golf balls into the reprocessing hopper. Before club members at his course Demaret stepped to the tee with half a dozen balls—three from the pro shop shelves and three reprints and three reprocessed ones. His longest drive of 255 yards was with an old pellet. The reprocessed ball averaged eight yards more in distance. A few days later Demaret repeated his experiment and got the same eight-yard difference.

Babe Dahlgren's Batting Suffers Terrific Slump

PHILADELPHIA (AP) — The man who barely a week ago was expected to bear the brunt of the National League's batting attack against the American League in the July 13 all-star game is off on a spectacular new batting spurt—downward in the standings.

He is big Babe Dahlgren, and he's taking the steepest batting average nose-dive of the season. The Babe led the league consistently until a week ago. On June 9, for example, his average stood at .367—15 points ahead of his nearest rival, Stan Musial of St. Louis Cardinals. It was a foregone conclusion that he'd be named for the "dream" game.

But when his selection was announced, his slump began. The Phillies star, who had been kicked around in the majors for six years until he joined the Phils this year, apparently, was so conditioned to cuffs that he couldn't stand recognition. Since the managers named him July 1, his batting average has been an anemic .182. At bat 33 times, he's made only six hits, felling his average for the season to .321.

Dahlgren led the league in batting, he says, primarily because he developed a sore arm.

"I used to go for homers exclusively" (23 for the season is his record), he explains. "Then when I joined the Phils at spring training Bucky Harris put me at shortstop, although my regular position was first base. The throws hurt my arm. It hurt to swing the bat. So I started not swinging so hard. The result was that I began to get a few base hits."

Pomfret Stars In Services Gala With Double Win

EDMONTON (CP) — Young AC2 Jack Pomfret of Vancouver, who claims the world 50-yard breaststroke record and several Canadian swim marks, showed the way Thursday night as Edmonton's R.C.A.F. manning depot won the city's first swimming meeting of the season in competition with U.S. army, Canadian and other R.C.A.F. competitors.

Pomfret, making his first swim appearance since joining the air force a short time ago, was a double winner, taking the 50-yard freestyle in 27.4/5 and won the 50-yard breaststroke event in 34.2.

Manning depot, sporting several competitors who made their second home in Canada's swimming pools and tanks in civilian life, emerged the winner of the meet with 40 points, coping six firsts, three seconds and a third. Edmonton No. 2 Air Observer School, R.C.A.F., was second with 26; R.C.N.V.R., third with 19; No. 4 Initial Training School, R.C.A.F., fourth with 10 and U.S. army, fifth with four.

P.O. Parrish of No. 2 A.O.S. won the 100-yard freestyle event in 1:41/5 and LAC Pomfret of No. 3 M. Depot took the 105-yard mixed style event in 1:21/3/5. No. 2 A.O.S. won five points when LAC Higham beat out two others in the 50-yard backstroke in 35 seconds.

WINS DIVING

LAC W. J. Pritchard took the diving event for No. 1 A.O.S., with Sgt. A. E. Pippenger of the U.S. army second and Instructor Bobby Jackson of R.C.N.V.R. third.

In the medley-relay, Pomfret joined forces with LAC. Power and LAC. Moran of Australia, now stationed at No. 3 M. Depot, to take the event.

Callura Gets Offer To Fight Terranova

NEW ORLEANS (AP) — Boxing Promoter Hyp Guinle said today he had offered Jackie Callura of Hamilton, Ont., recognized by the National Boxing Association as world featherweight champion, a \$10,000 guarantee to meet New York's Phil Terranova here in a 15 or 20-round title bout.

Guinle said Callura's manager, Leo P. Bradley, who arrived here Tuesday, was asking a guarantee of \$15,000.

PEARCE WILL ROW

TRENTON, Ont. (CP) — R.C.A.F. officials at the Trenton air station announced today that a regatta would be held here July 19, with prominent Canadian scullers participating. The main race will feature Lieut. Bobby Pearce of the Royal Canadian Navy, PO Jack Gaudaur, Canadian one-mile champion, and AC2 Johnny Fitzpatrick of the R.C.A.F., Canadian Henley champion,

Hockey Leaders Confer Here

Plans that may result in a change in the team make-up of the National Hockey League were talked over in Victoria Thursday at a session of the three gentlemen above. They are, from left to right: Eddie Shore, managing director of the Buffalo Bisons; Lester Patrick, vice-president of Madison Square Garden-Corporation and member of the executive committee of the N.H.L.; and Al Sutphin, owner of the Cleveland Barons. It is possible that Buffalo and Cleveland, both members of the American Hockey League, will move into major league company for next winter's campaign. Shore, one of the greatest players in the history of hockey, was making his first visit to Victoria since he played here in the old Pacific Coast League.

Week-end Baseball

Port Orchard Here

League game tonight between the Army and Eagles at 6:30 and two exhibition engagements tomorrow with Victoria All-Stars battling with Port Orchard at 2:30 and 6:30 will be the week-end baseball menu for Victorians.

Army will be after a win tonight and a second-place tie with the Navy. For the Eagles it will be just another ball game as the lodgemen are definitely out of the running for a playoff spot.

Two international tilts tomorrow will be for possession of the Hon. John Hart International trophy at present held by Victoria. Manager Joe Casey of the Victoria club has lined up a strong aggregation of players to

throw against the Washington visitors. On his pitching staff will be Tommy Musgrave, Jimmy Dumeah, Jerry Ray, Lefty Medansky and Jerry Whitney.

Other players will include: Doug Peden, Babe Work, Nerts Parent, Nick Metz, Whitley Monard, Ken Van Hatten, Gil Bruce, Jack Walker, Elmer Kreller, Ian Lowe, Reg Patterson, Laurel Harney and Julian Sawchuk.

With a fine record in their own backyard Port Orchard are expected to provide the locals with lots of competition. The visitors are reported to have a former major league pitcher on their roster along with a bunch of hustling youngsters who can really powder a baseball.

Wakefield Added To American All-Stars

CHICAGO (AP) — Dick Wakefield, hard-hitting rookie star of Detroit Tigers, was named to the American League's all-star squad Thursday as a substitute for Charley Keller of New York Yankees, who is injured.

The announcement was made by Joe McCarthy, manager of the Yankees, who will pilot the American League team in the 11th annual game at Philadelphia Tuesday night.

Stewart in Navy

CHARLOTTETOWN (CP) — Gaye Stewart, star with Toronto Maple Leafs in the National Hockey League last winter, now is training at H.M.C.S. Queen Charlotte here as ordinary seaman officer candidate. He came here from London, Ont., for a six-week course.

Tony Leswick Enlists

SASKATOON (CP) — Two Saskatoon hockey players, Tony Leswick of Cleveland Barons and Reddy Weaver of Indianapolis, both in the American League, enlisted Wednesday with the Royal Canadian navy here.

Both players were graduates of the Saskatoon Junior Quakers.

Cornwall Decision Not Army Policy

OTTAWA (CP) — Decision to break up the Cornwall, Ont., army hockey team does not represent general army policy, Defence Minister Ralston indicated Thursday in an interview.

Col. Ralston said the army sport program, including both football and hockey, is at present under review by a committee in the Adjutant-General's branch. The committee's report will go to the army commander for a decision. Air Minister Power said a similar study is being made for the R.C.A.F. Navy Minister MacDonald described the navy's general sport policy as "to encourage teams to join local leagues, but not those which require travel."

UMPIRES MEET

A meeting of the Lower Island Softball Umpires' Association will be held tonight at the Liberal Headquarters, Broughton Street, at 9. All umpires are requested to attend.

SPOKANE (AP) — Matchmaker

Bud Oliver said Thursday he would leave for coast cities to line up supporting bouts for the Henry Armstrong-Joe Silva fight card here Aug. 14. Among fighters Oliver said he hopes to sign is Leo Romaniello, Portland lightweight boxer.

California Golf Leaders Launch Smart Program

By HUGH FULLERTON
NEW YORK (AP) — The Southern California Public Links Golf Association is undertaking an ambitious program this summer with a war workers division which functions through recreation directors of about 100 war plants, and a junior golf instruction program, which helps to look after the kids whose parents have war jobs. President Alfred H. Mauer reports that the professionals, including such big-name players as Olin Dutra, Willie Hunter, Joe Novak, Harry Bassler and Stan Kertes, are especially enthusiastic about the junior work. Ten courses around Los Angeles, Pasadena and Long Beach are holding classes and they plan to wind up the courses with a tournament.

Speaking of golf, Sgt. Joe Louis, who is visiting here, reports that his current ambition is to reduce his handicap from six to scratch. "I don't know whether I'll still have the old zing in the ring after the war," oJc confesses, but I still have zing in that golf club."

ONE-MINUTE SPORTS PAGE

As soon as he heard of St. John's "resignation" from the National League all-star team, old Bobo Newsom phoned Ford Frick to ask for the batting practice assignment. That would have made him the first player to make the all-star squad in both leagues, but the call was too late and Ace Adams already had been given the job. Judge Landis' 736-page book, "Baseball," which subs for the old official guides, finally is off the press. At a glance it seems to contain everything except the name of J. G. Taylor Spink.

Garvey Young, the marine who beat sailor Freddie Cochrane, the welterweight champ, in a non-title bout last year, has been transferred from Boston to the southwest Pacific war zone, Jacksonville, Fla., fight fans are excited about Louis Nezu of the naval air station, who formerly was in the French navy. George Abrams says: "He's got the best left hook I ever saw an amateur use."

Kewpie Barrett In Great Stand

Hurls Phillies To Victory In 14 Innings

For years baseball's fountain of youth has reposed in Yankee Stadium and joining the perennial American League champions has made almost any ordinary ball player into a star, at least temporarily.

Now Philadelphia Phillies have set up a rival clinic in rejuvenation that is producing just as spectacular results without the scent of a world series share for a stimulant.

Schoolboy Rowe, St. Johnson, Babe Dahlgren and other veterans have responded to the treatment of Dr. Stanley Raymond Harris this season and the newest Phillies' patient to take the cure successfully is Dick (Kewpie) Barrett, former star of Seattle's Rainiers in the Coast League.

This 35-year-old right-handed pitcher who was cut loose a few days ago by Chicago Cubs after losing four games without winning one, came up Thursday with a 14-inning shutout against Cincinnati Reds to win a gruelling 1 to 0 battle for the Phillies after they had been battered 7 to 5 by a 17-hit assault in the first half of a doubleheader.

The performance was flashy enough to share attention with the one-hit game pitched by Orval Grove of Chicago White Sox as he beat the Yankees 1 to 0 in his seventh triumph without a defeat this season.

Grove, pitching the season's seventh one-hitter, came within one out of reach the no-hit hall of fame. The spoiler was a double by Joe Gordon (batting average .214).

Second place Detroit Tigers extended their spurt to 10 wins in 12 games by beating Philadelphia Athletics 3 to 1 on six-hit hurling by Paul (Dizzy) Trout.

Cleveland Indians beat Washington Senators 5 to 2 in a morning contest. It was Washington's sixth loss in seven games.

St. Louis Browns rebounded from their losing series to the Yankees to whip Boston Red Sox 5 to 2.

In the National League the only action aside from the Philadelphia doubleheader was at Brooklyn, where Pittsburgh Pirates punished Brooklyn Dodgers 8 to 2 for Rip Sewell's 12th victory against two defeats.

COAST LEAGUE

Portland's Beavers, riding hard on the sad Sacramento Senators, threatened to nose San Diego out of its third-place roost in the Coast Baseball League today as Los Angeles' rout of Oakland began to look like the series that could almost clinch the title for the high flying Angels.

Portland slapped the last-place Senators further into the cellar with a double defeat while Los Angeles gained a full game on San Francisco by beating Oakland in the third straight as the Seals were losing to Hollywood.

Veteran pitcher Ad Liska out-steadied Sacramento's George Jumoville, a made-over infielder, as Portland won the opener 8 to 2, and the Beavers came back in the finale with a five-run burst in the eighth inning off Bob Fitzke for a 5 to 0 shutout.

This left the Beavers only a half game behind third-place San Diego. The Angel victory also helped Seattle tighten its hold on sixth place as the Rainiers, eyeing the not-too-long road to the first division, clicked for four double plays to help Carl Fischer shut out San Diego 1 to 0. Seattle's sharp fielding won the verdict, although the Rainiers were outhit 8 to 7. Seattle scored in the sixth when Bill Kats tripled

Spokane Tennis Play Canceled This Year

SPOKANE (AP) — The inland empire tennis championships, revived here two years ago on a large scale, will not be staged this year because of travel restrictions and other conditions which will keep Pacific coast players at home. Bob Moran, president of the Spokane Tennis Club, said Thursday.

The athletic round table challenge trophy event, won last year by Harry Buttmer of San Francisco, and a new challenge cup won by Miss Barbara Kruse of San Francisco, will be shelved until inland empire competition is renewed, he added.

(Answer to previous puzzle)

HARRY LAUDER SIR ARTHUR WEIR KILLER OF THE LAUDER CRIMINALS ESTER STERES RIVER EYE RM IA ODOR IDEAS SPAN TOODADA TOP AMI ON FRETTERIA RECOMMENDATIONS

Dorothy Dix:

Dear Miss Dix—I am married to a very sweet and intelligent girl and until about six months ago we were very happy together. The trouble started when she discovered that she can never have a child, and since then she has been very resentful towards my young daughter by a former marriage. Even in the past I noticed that she was always very cold and unfriendly to the child and al-

ways seemed ill at ease even when we had her over for a week-end. This was so marked that I often felt sorry that I had the child over to our house.

Now, as conditions are, matters are worse. I don't know how to make my wife realize that it doesn't make any difference to me whether she can have children or not. Maybe she thinks that I will leave her, but I love her dearly and would never think of parting from her. Do you think that if I have my little daughter over often that my wife will overcome her resentment against her and will perhaps learn to love her as her own? She is only five years old and I think she deserves some consideration, but I don't want to make my wife unhappy. WORRIED.

CHILDLESS WIFE RESENTS STEP-DAUGHTER

Answer: Evidently your wife is one of the jealous and monopolistic women who cannot bear to think of sharing her husband's love with anyone else, and she is trying to cut you off from your child. She is no second wife material and would probably be a cruel step-mother to your little girl if she had to have her about. If the child is with relatives who love her and are tender to her, you had better let her stay with them.

There are women who feel that it is some sort of disgrace to them, as women, if they cannot have children. I would say that your wife belongs to this class and that her resentment to your little girl is based on this feeling, as well as her fear that it might make a difference to you in your feelings towards her. Doubtless as time goes on and she sees that it does not matter to you, she will learn to take the matter philosophically.

In reality, she is worrying about the wrong thing, for you are bound to be hurt by the knowledge that she is so small and selfish and loves you so little that she is not willing even to have your child pay you a visit. A step-mother separates her husband from his children at her peril.

SIDE GLANCES

By Galbraith

"The next time we save gas to drive to Grandma's for an old-fashioned farm dinner, we'll make sure it's not the haying season!"

Miss Canada Sends Wires to Hitler

Send a personal greeting—direct to Hitler! In the role of an international telegrapher Miss Canada sits in the conning tower of a miniature U-17 on the busiest corner of Victoria to take messages that will be delivered straight to Der Fuehrer on the backside of a depth charge!

"She sells savings stamps on the city streets" may not be as difficult to say as the old rhyme, but its meaning is much more effective. Ninety stamps on the National War Finance's U-Boat campaign poster means another depth-charge for the Allies, and when Canadian sailors release the streak of death for enemy destination it will bear one of the posters on which will be clearly marked the names of those who bought it.

One of the Miss Canadas who have successfully combined hard work and persuasive personality to equal at least one depth charge is Nora Clarke of the Victoria High School. For one dollar she will take personal messages addressed to Admiral Karl Doenitz, Grand Admiral of the German navy, to Adolf Hitler, to the U-boat commander or to the sailors of the Canadian navy.

Messages read: "You build 'em and we'll sink 'em," "To help you have a real bang-up time," or one scribbled in righteous anger, "To hell with the Hell!"

Some of the signatures are childish scrawls; one from "Brian of Balmoral," another "Jimmie D., Davida St.," a third marked "Sandra."

One of today's buyers was Sub-Lt. Thomas, R.N.R., who has spent six days in an open boat as a result of torpedoing; another said he had already bought \$5,000 worth of Victory Bonds. One woman said she was helping to buy the depth charge for her son in Hongkong.

Visitors as well as Victorians are entering into the spirit of the campaign. The Matlocks, mother and daughter-in-law from Alberta, bought \$4 worth. Kiddies who haven't got a whole dollar often want to put their names on the depth charge, so obligingly Miss Canada saves up the adult's contribution and adds it to the youngsters.

Miss Canada will be on the Douglas-View Street corner every day this month. It may not be Nora Clarke, but whoever it is will have the same enthusiasm as Nora has when she says: "I'm going to do this just as often as they'll let me."

Army Enlistments

Thirteen enlistments were registered at the Victoria recruiting substation during the week ended July 7. Six were of Victoria citizens, five of men from other Vancouver Island points, and two of men in the Reserve Army "going active."

Their names are: J. E. Simpson, 851 Short St.; J. W. Cooper, 1981 Carrick; V. G. Holland, 1179 Munro; G. R. Crowther, 304 Chester; L. R. Wyatt, 2072 Hampshire, and C. B. Bayes, 1162 Fort; W. H. Barram, Port Alice; E. R. U. Peck, Sidney; I. McGuckie, Nanaimo; V. J. Brailford, Sooke, and H. A. Murdoch, Port Alberni; J. A. Schultz and L. A. Wood, both of the 5th B.C. Coast Brigade, R.C.A.

Missing On Raid

VERNON, B.C. (CP)—Sgt. John P. Bishop, 32, is missing after R.C.A.F. operations overseas, his parents, Mr. and Mrs. J. A. Bishop of nearby Coldstream, have been notified. Sgt. Bishop had just recovered from injuries suffered last April in the crash landing of another plane.

Uncle Ray

Records Show That Some Donkeys Use Good Sense

Yesterday I spoke of the common idea that donkeys are stubborn and dull-witted. This seems to be true of some donkeys, perhaps because of bad treatment which owners have given them.

Yet many cases are on record in which donkeys have shown good sense.

In 1816 a British sea captain, Dundas by name, was sailing from Gibraltar to Malta with a donkey on board. His vessel, the Ister, struck a sandbar off the Spanish coast, and the donkey was flung overboard.

Swimming several miles, the donkey reached shore, then traveled 200 miles westward. Several days later, a guard at the Gibraltar gates was amazed to see the same donkey which had been shipped to Malta. The donkey, we are told, walked through Gibraltar until he found the stable which he had left.

Another Englishman makes this report about a pet donkey: "While living on the Sussex coast, I had a very fine donkey. He was the companion of my children in their rambles on the downs. When they took food with them, he seemed to feel that he had a right to share in it."

"The donkey would accept from the children's lunches apples, oranges, milk, cake and even tea. He would not, however, take ginger beer (that is, ginger ale). He had been struck on the nose by a cork from a ginger beer bottle, and he would quickly march off when such a bottle was taken from the lunch basket."

"The donkey, lodged in a small, open shed with a small yard in front of it. He was not allowed to go into the nearby kitchen garden, but at night he would unlatch a gate and go into that garden."

"From my window one night I saw him rear on his hind legs so he could move the high latch on the gate. He walked quietly into the garden and a few minutes later came back with a large bunch of carrots, which he put in his shed."

On this continent and in South America there are donkeys known as "burros." They are descended from donkeys brought in from abroad.

Frank C. Hibben tells of an attack by sheep dogs against a number of burros which were carrying packs up Mount Goddard in California. He says that the burros fought off the dogs with their hoofs and teeth, killing two of them.

Sometimes, however, burros are on good terms with dogs. One burro won a name for himself by his habit of "kissing" a dog and other animals on the ranch each morning.

Music Teachers Wish To Be Profession

B.C. Music Teachers' Association has asked Attorney-General R. L. Maitland to bring in an act setting up the teaching of music as a profession.

Such an act would restrict music teaching to those either already actually teaching or in the future passing qualifications set up by the association.

Mr. Maitland said today he would give the matter his consideration, but doubted if it was wartime legislation.

City police today were seeking the owner of a bag containing \$70 in U.S. currency, which was found by F. J. H. Baines, Thursday, outside his confectionery store, at 1409 Douglas Street. The money is awaiting a claimant at the city police station.

TOWN TOPICS

Grade B gas instructors certificates were issued today to F. L. Anscombe, J. H. McLuhan and Walter Yeamans of the city A.R.P. service.

Mrs. E. Speed, 337 Kingston, complained to city police Thursday that children in her neighborhood had done considerable damage to her garden.

The city water board is still considering applications for the tearoom concession at Cedar Grove Tearoom, Goldstream, Ald. J. A. Worthington, chairman, said today.

Lum Kau Tuk, 544 Cormorant Street, was treated at Royal Jubilee Hospital Thursday for cuts and bruises about the face suffered when he fell from a truck driven by Harvey Stevenson, 1982 Albina Street.

Ronald E. Campbell, who Thursday pleaded guilty of stealing a package containing a pair of silk stockings and a nightgown, was sentenced to 10 days' hard labor by Magistrate H. C. Hall today.

City police prowler car No. 3 was slightly damaged Thursday when it and a truck proceeding north on Quadra, collided. Police gave William S. Duncan, 3250 Eldon Place, as the driver of the truck. Constable R. J. Morris had charge of the prowler car.

The city public works committee, meeting today, instructed city engineer G. M. Irwin to survey and report upon the need for improvements on Vista Heights. At the same meeting the committee called for further information on submissions by the Carpenter's Union regarding rates of pay and heard a protest from the outside staff over an alleged difference in pay to one worker.

Sub. Lieut. Philip D. Thomas, R.N.R. whose experiences adrift in an open lifeboat in the North Atlantic were recorded in yesterday's Times, will tell the graphic story of the torpedoing and subsequent rescue of part of the crew of the Ss. Elwyn on a broadcast tonight over C.J.V.L. The program, which will be heard at 8:45 p.m., is one of many features in the National War Finance's current "Stamp out the U-Boat" campaign.

A meeting of the British Columbia Historical Association will be held at Molton Combe, the home of Mrs. W. Curtis Sampson, 1003 Newport Avenue, Saturday, at 3 p.m. Lt.-Col. Gerald S. Graham, R.C.N.V.R. (formerly professor of history at Queen's University, Kingston, Ont., now of Royal Roads, Esquimalt, will speak on "The Making of a Nation: Problems of Canadian Unity Since Confederation." Community singing will be enjoyed in the garden and tea will be served during the afternoon.

Safeguarding Public Health Problem

Dr. David Berman, acting medical health officer, released his annual report for 1942 today.

The city, he noted, had escaped diphtheria, smallpox and typhoid during the year. The absence of diphtheria he attributed to the increased use of diphtheria immunization.

"I cannot say the same for smallpox vaccination," he said. "The danger of typhoid, in my opinion, is, however, present." "The past year," Dr. Berman said, "has brought into greater prominence the increased problems of safeguarding the public health incident to the wartime dislocation of large sections of population from areas outside of the province, and the resultant serious housing shortage with the ensuing problems of providing necessary sanitation, increased load of food handling establishments and their supervision, and control of communicable disease which has shown a tremendous increase in the past year."

"The problems of sanitation," the report continued, "throughout the city have been intensified, due to unnatural increase of the load on housing and sanitary facilities, inability to create new housing, wearing out of old equipment and the shortage of replacements. In the food-handling establishments such as restaurants and dairies, the problems have been increased owing to the fact that personnel turnover is so great that inexperienced handlers must carry on operations. For the same reasons old and unsatisfactory houses and shacks cannot be torn down and replaced. Practically every available acre that is roofed over is being used."

The doctor's statement concluded with a recommendation for immediate chlorination of the city's domestic water supply.

Sgt. Thomas Carney, well-known rugby and lacrosse player before joining the Canadian Scottish at the outbreak of war, has arrived overseas, it was learned Thursday in a cable to his wife, who lives at Esquimalt Lagoon.

Home Economists Discuss Food Values

Resolutions aimed at more practical application of present-day knowledge of food values were passed at a meeting of the Victoria Home Economics Association held recently at the home of Mrs. T. H. Johns, Somass Drive. The resolutions, as follows, are to be presented to the National Home Economics Association:

1. That an educational campaign be organized to acquaint the public with the value of Vitamin B flour, and to encourage its more widespread use among commercial bakers;
2. That a study of school cafeterias and lunch boxes be made, and that some practical and direct suggestions be made concerning such; and that in schools where cafeterias are situated some arrangements be made whereby Home Economics teachers could supervise these and such time spent be considered teaching time.

The meeting also asked that a suggestion be made to this year's national convention that the biennial Canadian Home Economics convention be held alternately east and west, the 1945 convention to be held in Alberta, and the next convention after in the east.

Letters were sent from the meeting to the secretary of the School Board, also to the Medical Health officers of Victoria, Oak Bay and Esquimalt, expressing interest in any move toward the improvement of school lunches and the providing of pasteurized milk for the children, and offering any assistance that could be given by the group.

Plans were made for the meeting in September, when a full executive will be set up. Dr. H. B. King, chief inspector of schools for British Columbia, spoke to the group on the matter of improving nutrition in all grades of school. Mr. and Mrs. Harold Campbell and Miss Grace Duggan, professor of Home Economics, University of Alberta, were guests at the meeting.

280 Children Register At Oak Bay Playground

To date 280 children have registered at the Oak Bay Supervised Playground, Willows Beach Park. The season opened at 10 Monday morning.

Great enthusiasm is shown by the children, who, under the direction of the supervisor, Mrs. E. J. Costain and her assistants, attend classes during the day. The swimming classes under the direction of Mrs. D. Smith, are the highlight of the children's day. Any child still wishing to enroll may do so by seeing Mrs. Costain at the park.

The Windsor Park opening date will be July 26 at 10.

B.C. Police to Watch Doukhobor Parade

Attorney-General R. L. Maitland today instructed provincial police to watch Doukhobors that nothing be done at the parade in Brilliant, Aug. 1, that would be prejudicial to recruiting of men and women for His Majesty's armed forces.

He took this action following receipt of a letter from the Castlegar-Robson branch of the Canadian Legion protesting a Doukhobors' "peace declaration" and burning of arms celebration Aug. 1. The Legion told the attorney-general it feels this is no time for a peace celebration of any kind and asked that the parade be canceled.

Mr. Maitland pointed out there is no B.C. statute that would permit him to stop a parade.

3 Cars, 2 Tricycles Stolen, Police Learn

Thefts of three cars and two tricycles were reported to city police Thursday evening and early today.

Cars, reported to have been stolen by Eugene Dunconu, 1036 Hillside, and B. Filby, 1112 Cook, were recovered by Sgt. Harry Mercer. The third car, which S. D. Watt, 601 Gorge Road, said was stolen from Yates Street, has not yet been found.

Mrs. J. Gagner, 1611 Pembroke Street, and Mrs. J. Skillings, 935 Foul Bay Road, reported tricycles stolen.

Rooster, Bagpipes Cause Complaints

Roosters and bagpipes were topics of investigation by city police today following the filing of complaints by citizens who said they could not sleep because of the noise.

Mrs. J. Mathews, 1723 Coronation avenue, said a neighbor's rooster which crows early in the morning, was "very annoying."

Fred Williams, 670 Battery, said a neighborhood boy who practices on the bagpipes, kept night shift shipyard workers awake.

Suggest Old Buildings Ease Housing Shortage

Accommodation for at least 300 people seeking shelter in Victoria could be provided with reasonable improvement of existing old buildings centrally located, according to a report today from the city sanitary inspector's department.

The department, continually inspecting various premises, sets forth the suggestion as housing demands increase and anticipated influx of workers for new war industries stretch existing facilities.

The buildings sanitary officials have in mind are privately owned. They suggest renovation and modernization of sanitary facilities for such structures as the Royal Arms Hotel, 1717 Store Street; Allies Hotel, Blanshard and Pandora, and upstairs floors at 749 and 605 Pandora as well as the old Wilson Hotel, 600 block Yates.

The floor space and walls are available in those buildings and roofs could be renewed to provide adequate shelter, in the opinion of the officials.

They do not suggest the manner in which the work should be financed, but point to the possibilities of providing housing.

Boy Starts Motor, 3 Cars Damaged

A freak accident, which resulted after a five-year-old boy started a parked car, did considerable damage to three automobiles Thursday afternoon.

Mrs. W. G. Smith, Christmas Avenue, Saanich, city police said, left her two sons, Tommy, 5, and Jackie, age 3, in her car on Pandora between Douglas and Broad, while she did some shopping.

While she was absent, young Tommy began playing at the instrument panel. Without realizing the consequences, he turned on the ignition key and then stepped on the starter.

The motor responded and the car, which was parked in reverse gear with a foot on the emergency brake applied, started backing, uncontrolled, up the street.

It backed into a car owned by Erskine Anderson, 538 Langford, pushing it up over the sidewalk, and then bumped into a light delivery truck owned by the Northwest Sound System, 645 Pandora Avenue, before the engine stalled.

The Anderson car was slightly damaged while the light truck suffered considerably. Only scars of the incident on the Smith car were a damaged fender.

Prepare Heals Camp For Reserve Training

In preparation for the regular two-weeks summer training camp for the Reserve Army, an advance party of 20 left today for Heals Range to prepare the site.

A total of 700 men will attend the camp which opens Monday. They will come from the following units:

Canadian Scottish, 114th Infantry (Res.) Co., Veterans' Guard of Canada; No. 1 (Res.) R.C.O.C. Posters Workshop, and 13th (Res.) Field Ambulance, R.C.A.M.C.

Sunday, July 18, the various units will be "at home" to civilian friends at Heals Camp, between 3 and 5, when visitors will be shown through the camp. Special transportation arrangements are being made with Vancouver Island Coach Lines for the occasion.

Citizens Must Pay For Gas Rescortors

Capt. D. J. Proudfoot, Victoria A.R.P. chief warden, today issued the following statement to clear up some misconceptions on the distribution of civilian gas masks:

"No person, other than myself, has the authority to sell, or issue free, a gas mask to the public, at present. In case of an emergency other arrangements have been made. Any person wanting a gas mask should apply in person at the Sunshine Inn, between 9 and 6 in the afternoon."

"Applications have been made to the federal and provincial authorities asking that we should be allowed to fit and issue free a mask to every person in Victoria. Unfortunately, all appeals have been turned down, and our orders are that all masks must be paid for, unless an application form is signed to the effect that the applicant is unable to pay."

Anniversary Recalled

Attorney-General R. L. Maitland recalled today that it is 30 years ago this week that he was called to the British Columbia bar before the late Mr. Justice Gregory in the Court House at Victoria.

Another young lawyer at that time was Gordon S. Wismer, who also became Attorney-General and served immediately before Mr. Maitland.

Laissez-Faire Policy Dead, Says G. Hebden

Laissez-faire is dead, but a modified form of free enterprise in economic life will survive the present war, G. A. A. Hebden told members of the Lions Club at a luncheon meeting in the dining-room of David Spencer Ltd. Thursday.

Speaking on "Reconstruction After the War," Mr. Hebden stated full employment was of the greatest importance in building and maintaining a general high standard of living in Canada.

"If and when the postwar boom breaks, domestic problems to be solved will be: Provision of employment, opportunities within the Dominion, conservation and utilization of natural resources and development of plans for publicly-financed construction projects," he said.

An attempt should be made, he said, to preserve, as far as is compatible with the attainment of full employment, the basic Canadian tradition of free enterprise and personal initiative in both political and economic life. Mr. Hebden based his argument on some of the findings of Dr. F. Cyril James, McGill University principal and chairman of the Dominion Advisory Committee on Reconstruction.

There were seven various reports which might be used as a basis of discussion for the topic of postwar reconstruction, he said.

Some relaxation after the war, in the present governmental control over business, was anticipated by Mr. Hebden, but he felt that the government would always maintain an over-riding control.

Brick Company Guilty On 3 Prices Charges

Baker Brick & Tile Co. Ltd., 3191 Douglas, pleaded guilty today to three charges of contravening the Wartime Prices and Trade Board price ceiling regulations by selling drain tiles and structural tile at prices exceeding those set by the board.

Magistrate H. C. Hall reserved sentence.

J. B. Clearihue, K.C., prosecuting for the board, said that between Jan. 2 and April 1 the company sold to Island Farms Ltd. three-inch drain tiles for \$45 per 1,000, whereas the basic price was \$40, and sold four-inch tiles to the Island Building Supply Co. for \$40 per 1,000 when the basic price was \$35.

The third charge was of selling to Evans, Coleman & Johnson Bros. Ltd. hollow structural tile for \$120 per thousand when the basic price was \$100, although a 70-cent per ton increase had been permitted.

H. W. Davey, counsel for the company, said the firm burned their bricks with wood and the price increase had been necessary to compensate for this. He said it would be impossible for the plant to operate unless the increased prices were permitted.

Housing Registry Finds Places for 7,000

National Housing Registry across Canada has placed 20,000 people in houses, suites and rooms and of that number the Victoria Registry has accounted for more than 7,000, Mrs. W. E. Rayfuse, manager, said today.

As a result of an appeal for board and room accommodation for couples, especially with one child, a number of Victoria householders have offered room with use of kitchen facilities, she said.

A great many more offers are needed. If ships are to be built on the coast accommodation has to be found for the workers being brought in from prairie points. "More people will have to share their homes."

Opening up of a branch factory of Boeing Aircraft in Victoria will not affect the housing situation here, Mrs. Rayfuse said, stating that accommodation has already been found for the key men being brought here from Vancouver.

Maximum Penalties For 2 Guilty of Theft

Gidney A. Ellis and Frank Garmham were sentenced to maximum penalties of six months' hard labor when they appeared before Magistrate H. C. Hall today on charges of stealing pieces of ornamental china.

The men were arrested Thursday morning by Constable Ray Maitland and held on charges of vagrancy which, at request of Prosecutor Claude Harrison, were withdrawn today.

Ellis, who had a long record of theft and breaking and entering, pleaded guilty of stealing a piece of Dalton china from MacDonald Electric Ltd., 1121 Douglas Street, while Garmham said he was guilty of stealing another piece of china from Montague Bridgman's store at 1003 Government Street.

Certainly We Have SAXOPHONES!

Mrs. K. Healy, 86, Dies Thursday

Requiem mass will be sung at 9 o'clock Monday morning in St. Andrew's Cathedral when funeral services will be held for Mrs. Kathleen Josephine Healy, 86, who died at her home, 417 Luxton Avenue, Thursday.

Mrs. Healy came to Victoria from Seattle in 1882 in answer to a call for volunteer nurses to give assistance during the smallpox epidemic of that year.

She returned to the nursing profession following the death of her husband, Dr. Jeremiah Healy, and was well known by members of the medical profession here. Mrs. Healy specialized in nursing insane and infectious disease cases, retiring from active nursing in 1916. She had been an invalid for the past 10 years.

A former member of the Altar Society and other groups of St. Andrew's Cathedral, Mrs. Healy is survived by one daughter, Miss Frances K. Healy, at home.

Prayers will be offered on Sunday evening at 8:30 at Haywards B.C. Funeral Company Chapel and interment will take place at Royal Oak Burial Park.

Unclaimed Bank Deposits Eyed By British Columbia

British Columbia may officially interest itself in the Quebec Appeal Court's recent judgment that Quebec province is entitled to Quebec bank deposits, unclaimed for 30 years or more.

In the past the Dominion government has claimed such deposits from all provinces. Attorney-General R. L. Maitland said today he is studying the matter.

"We will probably intervene if this case goes before the Supreme Court of Canada," Mr. Maitland said. "It is a very far reaching case, in my opinion, and may mean a great deal of revenue for the various provinces of Canada."

Singing and Dancing On View St. Saturday

The Royal Canadian Band will play dances for a sailors' hornpipe at a U-boat campaign rally to be held Saturday at 2:30, on the View Street platform, between Douglas and Broad Streets.

Wynne Shaw's dancers will highlight the hour-long concert. On the program will be the naval choir under the direction of SAA. Allan Thompson, singing a variety of popular and classical numbers arranged for four parts.

A.R.P. Activities

District 11—A meeting of the entire personnel, including wardens, first aid workers, Fletcher carriers and messengers of A.R.P. District No. 11 will be held at Margaret Jenkins School Tuesday night at 8. An outdoor demonstration of protection against fire from incendiary leaves and the treatment of phosphorus burns will be the feature of the gathering.

Funeral services for Rev. Bishop Black, 45, who lived in Victoria 10 years and for some time was pastor of Esquimalt Methodist Church, were conducted at Vancouver Thursday. Mr. Black, who for some time was a missionary at the Indian School at Uchuelet, V.I., died suddenly Monday.

Vancouver Duet To Play Here Monday

Details of the coming week's extra-curricular events at the Provincial Summer School of Education are posted in the main hall at Victoria High School. All programs will take place at 11 a.m. on the mornings mentioned, and will be open to the public.

Monday, Leila and Max Pirani, violin and piano recital.

Tuesday, "The Silent Service," presenting the navy dance band, Wynne Shaw's dancers, Commander V. P. Alleyne, who will give a short address, and Lieut. Hunter, who will act as master of ceremonies.

Wednesday, Pierre Timp, baritone, and Muriel Jarvis Ackin-close, soprano.

Thursday, Royal Canadian Navy choir in Navy Week program.

A program scheduled for Thursday night has had to be canceled. The usual weekly school dance will take place at 9:30 p.m. Friday, when the hostesses expect to entertain a large number of men from a nearby barracks which is being visited Saturday night this week by 100 young women students who have volunteered to act as dance instructors.

Summer Camp Ends; Air Cadets Go Home

Their summer camp training over, 275 air cadets from all over B.C. left Patricia Bay Thursday for their homes after an intensive study of various aspects of air force work, including armament, parachute packing and drill.

A sports day, July 1, was one of the highlights of the camp while on Thursday the boys were inspected by Air Commodore A. Hull, Western Air Command. Another inspection, Wednesday was conducted by Dominion and Provincial Officials of the Air Cadet League of Canada.

Victoria officers at the camp were F.O. P. C. Routley, R.C.A.F., and A.C. F.O. Grant Paterson. Some 25 members of the Greater Victoria Air Cadet Wing attended.

Goebbels Runs Theatres

STOCKHOLM (AP)—Berlin dispatches received here say Propaganda Minister Goebbels has taken over the operation of all German theatres from private operators because of dissatisfaction with the programs. The report indicates he believes the programs have not been attuned to the Nazi war effort.

Mockingbirds seem to prefer to live close to human habitations.

'Jerry' Lane Gets D.S.O., Jack Hudson Wins D.F.C.

A new distinction came Thursday to a native son of Victoria, Sqn. Ldr. R. J. "Jerry" Lane, son of Mr. and Mrs. G. E. Lane, 1468 Begbie Street, when R.C.A.F. headquarters announced he had been awarded the D.S.O., sixth man in the force to be so honored in the present war.

A salesman employed by the Hudson's Bay Company, here in July, 1941, he enlisted in the R.C.A.F., topped his graduating class at flying school and was flying over Cologne as a pilot officer five months later.

Since then, his career has progressed without interruption, honors and promotions coming fast. After a tour of operations over western Germany in early December, 1941, he received special notice when he piloted a Halifax bomber home on three engines, dodging heavy flak and heavy weather.

GETS PROMOTION

In May, 1942, after more flights over enemy territory, he was promoted to flying officer and in July to flight lieutenant. At this time he was one of the first Canadians to skipper one of the big four-motored Halifax bombers, and two months later his first decoration came, the Distinguished Flying Cross.

The citation for his new honor is as follows:

"Sqn. Ldr. Lane has been engaged in operational duties for a long period, and over a wide range of targets. His missions have been marked by unvarying success. As a flight commander, Sqn. Ldr. Lane has rendered most valuable service and his leadership and example have been inspiring to all the aircrew with whom he has come in contact. This officer has recently been on operational sorties to such targets as Berlin, Stuttgart and Munich, and by his courage and devotion to duty has achieved many outstanding successes."

GETS D.F.C.

Another Victorian in Thursday's honor list is Flt. Lt. Jack Hudson, who has been awarded the D.F.C.

A son of Mr. and Mrs. Charles

FLT. LT. J. HUDSON

Hudson, 2012 Oak Bay Avenue, Flt. Lt. Hudson came to Victoria in childhood and attended Willows and Oak Bay High Schools, continuing his education at the Ontario College of Agriculture, Guelph, where he graduated with the degree of B.Sc. (horticulture). He enlisted in the R.C.A.F. immediately after graduating in the spring of 1941, and went overseas in October.

He was promoted to his present rank in January, 1943, after much flying experience over enemy territory as deputy flight commander of the famous "Allouette" squadron of French Canadians.

The citation announcing the award of his D.F.C. follows:

"Flt. Lt. Hudson has completed a full tour of duty in a most commendable manner. He has taken part in numerous operational missions over such targets as Hamburg, Cologne, Mannheim and Turin, displaying throughout exceptional qualities of leadership, gallantry and devotion to duty."

He revealed that the club had lost 14 members during the past year, three being to the army, and given honorary membership.

"In our club we have three of the original charter members who are still with us today, namely: Carl Penderay, Alex Peden and Arthur Mallet," he said. He mentioned four others who had been members for 30 years.

Mr. McConnell reported that attendance at club meetings during the past year had been higher than average for all other clubs in the district. Financially the club was in sound shape, he said, having a cash balance of \$862 and a Victory Loan Bond of \$1,000 in reserve.

Donations to worthy causes during the past year were as follows: Aid to Russia, \$250; Community Chest, \$100; Solarium, \$581.95; Red Cross, \$250; Kiwanis Christmas Seal campaign, \$75; Salvation Army, \$75; Boys' Camp, \$54; besides numerous small donations to other purposes, including \$100 to the fairs campaign, \$500 to the Navy League of Canada, \$110 to the entertainment of the youth in Canada's navy; and \$54 to contestants in the Saanich Victory Gardens contest.

He drew attention to the fact that through the club's agricultural committee 35 members had been encouraged to start Victory Gardens.

Thanks were expressed to the orchestra for their regular weekly entertainment during the past year, to the press and to the chairmen of various committees.

Hon. H. G. T. Perry, Minister of Education and member of the Victoria Rotary Club, was the only visiting Rotarian, and the guest of honor was Murray Martindale, president of the Kiwanis Club.

During the meeting War Savings Certificates amounting to \$40 were drawn for and a tomato was run off in which prizes were given to the lady guests.

Gas Subsidy Peak 14 Cents a Gallon

OTTAWA (CP)—Answering questions in the Commons Thursday on the petroleum products subsidy, for which the estimate this year is \$24,000,000, Finance Minister Ilsley said the subsidy was paid as an alternative to permitting the price of gasoline to go up, due to increased shipping and insurance costs. At one time, he said, this went as high as 14 cents a gallon on gasoline made from oil brought in by tanker.

But just now the question of inflation has become a critical one down here; if it gets away from them there will be repercussions in Canada—worse still, inflation now will probably mean deflation in the postwar period."

Heenan Visits Brother

TORONTO (CP)—Hon. Peter Heenan, Ontario Minister of Labor, announced today that he will leave by plane tonight for Saskatoon, where his brother, John, 76-year-old railroadier, is seriously ill. The minister indefinitely postponed his speaking tour of Ontario in connection with the forthcoming provincial election.

thousand army and navy graduates, as well as civilian students, received their degrees, Mr. Perry touched on some of the interesting postwar economic problems examined in his studies during the year.

"But just now the question of inflation has become a critical one down here; if it gets away from them there will be repercussions in Canada—worse still, inflation now will probably mean deflation in the postwar period."

Rotary Reports High Membership

Victoria Rotary Club has practically re-established its all-time high membership of 141 set in 1920, it was reported when reports were presented and installation of officers took place at the annual general meeting and ladies' day in the Empress Hotel Thursday.

In a ceremony conducted by A. C. Lindsay, M. J. Little, retail jeweler, was installed as president of the club for the coming term, succeeding Frank Turley, retiring president, and four new members were added to the board of directors.

The board now consists of Frank Turley, past president; L. B. Bing, Bill Lemm (sergeant-at-arms); Alf. Dowell, C. F. Armistead, E. N. Horsley, George J. Alexander, R. J. Burland, John A. Craig and Alfred R. Smith. The retiring members of the board are A. C. Lindsay, Morris Green, Joe Doe and Dan Miller.

Retiring as president, and introducing his successor, Mr. Turley expressed his appreciation of the co-operation given him by all club members during the past year, his regrets at departing the office, and his intention to give full support to the incoming president.

He was presented with the past president's button by the new president, in behalf of the club.

Mr. Little, accepting the gavel as president, said: "I wonder if it will be possible to equal, much less excel, the good work have done during the past year, in spite of the war with all its attendant inconveniences, regulations and restrictions."

He said that one of the chief objectives during his tenure would be to continue to support everything directly or indirectly aiding the war effort, to the ultimate goal that the war might be successfully concluded and peace established.

138 MEMBERS

T. P. McConnell, secretary, giving reports for the past year, said: "When this club received its charter in 1913 it started with a membership of 27, which increased to an all-time high of 141 in 1920, then dropped to an all-time low of 95 in 1934. At this time our membership is 138. We elected 16 new members during the past year and have another four elected but not yet installed in membership."

He revealed that the club had lost 14 members during the past year, three being to the army, and given honorary membership.

"In our club we have three of the original charter members who are still with us today, namely: Carl Penderay, Alex Peden and Arthur Mallet," he said. He mentioned four others who had been members for 30 years.

**Great Love Story At the Dominion**

The dramatic story of a woman fier who sacrifices life and love on the altar of patriotism is brought to the screen in RKO Radio's "Flight for Freedom," starring Rosalind Russell and Fred MacMurray, is now being shown at the Dominion Theatre.

The picture reveals the manner in which the U.S. navy obtained accurate aerial photographs which enabled it to successfully bomb Jap-mandated islands such as the Gilbert and Marshall groups when the day arrived that America and the Japs were at war.

Aside from its thrilling action, "Flight for Freedom" is one of the most powerful and compelling love stories ever filmed. David Hempstead produced, with Lothar Mendes directing.

OAK BAY AND PLAZA THEATRES

Two ex-stunt men who have attained greatest fame as roly-poly comedians appear together in Damon Runyon's "It Ain't Hay," now playing at the Oak Bay and Plaza Theatres. One of them is Lou Costello, who with his partner, Bud Abbott, makes his 10th feature film appearance in the new Universal comedy. The other is Eugene Pallette, veteran of 30 years in pictures, who, like Old Man River, just keeps rollin' along.

CAPITOL THEATRE

Gig Young, wearing the three-day growth of beard called for in the script of "Air Force," the Warner Bros. picture now at the Capitol Theatre, dined in a small restaurant on one of his days off.

Dressed shabbily, he looked and felt like a bum. But he felt even more like a denizen of skid-row when the man in charge pushed away his money for the check with: "Forget it, buddy. I've been on the bum myself."

YORK THEATRE

Babe Ruth, the King of Swat, emerges from retirement to play himself in Samuel Goldwyn's great true-story film, "The Pride of the Yankees," currently at the York Theatre, based on the life of the late Lou Gehrig, star first baseman and batter extraordinary of the New York Yankees.

The men were keen rivals for batting honors before Ruth's retirement.

ATLAS THEATRE

Background sequences in Samuel Goldwyn's "They Got Me Covered," which show various points of interest in Washington, were the first to be checked by the government under a new ruling requiring that no military installations of any kind be shown on the screen without proper authorization. Some stock newsreel shots in the past have inadvertently shown defence sites.

"They Got Me Covered," now at the Atlas Theatre, is a hilarious comedy starring Bob Hope and Dorothy Lamour, and released by RKO Radio Pictures.

CADET THEATRE

While working at Universal Studios in "Butch Minds the Baby," the Damon Runyon production now being shown at Cadet Theatre, Virginia Bruce became a member of the American Women's Volunteer Service.

RIO THEATRE

As close as anyone can figure, sales of Gene Autry's phonograph recordings have reached the 10,000,000 mark, a figure far ahead of Bing Crosby, his nearest competitor. Gene's newest Republic picture, "Call of the Canyon," now at the Rio.

Maisky to Moscow

LONDON (CP)—Ivan Maisky, Soviet ambassador to Britain, has left for Moscow for consultations with his government, it was authoritatively disclosed Thursday night. He last was in Moscow in December, 1941.

Where To Go Tonight

(As Advertised)

ATLAS—Bob Hope and Dorothy Lamour in "They Got Me Covered."

CADET—"Butch Minds the Baby," starring Virginia Bruce.

CAPITOL—"Air Force," starring John Garfield.

DOMINION—Rosalind Russell and Fred MacMurray in "Flight for Freedom."

OAK BAY AND PLAZA—Abbott and Costello in "It Ain't Hay."

RIO—Gene Autry in "Call of the Canyon."

YORK—"The Pride of the Yankees," starring Gary Cooper.
